SAILORS KILLED OFFICERS.

Refused to Fight and Compelled the Russian Admiral to Surrender.

ST. PETERSBURG, June 2.—The Russian press this morning still is advocating more vigorously than ever the summoning of a national assembly, even the reactionary Sviet joining in the general chorus.

In view of the current rumors, it is most significant that the papers which are more or less in the confidence of the government, unanimously take the position that representatives of the people should decide the question of peace or war.

REMOVE CENSORSHIP.

All censorship is now removed from foreign despatches and the people are appalled at the horrible stories of slaughter on board the Russian ships.

The Admiralty has not yet been able to estimate even approximately from the foreign advices the loss of men, but as the ships were over, rather than under-manned, the total will be greater than the ordinary complement of the vessels would indicate and probably will exceed 10,000 if only about 4,000 were saved.

BELLS ARE TOLLING.

Requiem masses are being celebrated constantly in all the churches and chapels for the repose of the souls of the slain, although the distracted relatives are unable to learn definitely the fate of those dear to them.

The Admiralty up to the present time has been unable to throw any light on the situation except to announce the safety of those who have reached Vladivostok.

UGLY STORIES.

Ugly stories are circulating in this city of the demoralization and even treachery of the crews of several of the Russian ships during the battle, and it is even said that the crew of the battleship Orel bound their officers and hoisted the white flag.

The origin of these stories, which are discredited by all naval men here, cannot be traced, as the only direct information comes from Japan, but doubtless they are based on the trouble among the crew of the Orel before her departure for the Far East.

CALL HIM COWARD.

She was sunk at her dock before she left Cronstadt, and later at Libau the crew grew mutinous. Indignation against Rear-Admiral Nebogatoff is growing.

The epithets "coward" and "traitor" are coupled with his name, especially since the receipt of the Tokio dispatches, showing that his surrender was not in the heat of battle, but with the land close under his lee, to which his crews could have escaped after the destruction of the ships.

RUSSIANS ALARMED.

Conservative Russians are alarmed at the possibility of disorders in various parts of Russia as a result of the disaster aand a feeling of disquiet for the future is manifested everywhere.

ZEMSKY SOBOR TO DECIDE FOR WAR OR PEACE.

Emperor Nicholas Has Decided to Follow Ancient Tradition of Romanoff House.

ST. PETERSBURG, June 2.—Although official confirmation is lacking, the Associated Press again hears on very high authority that Emperor Nicholas has resolved to follow the ancient tradition of the house of Romanoff and summon a Zemsky Sobor to meet in the ancient capital of Moscow to decide on peace or war and determine the form and preogatives of the future Russian parliament.

Prices on the Bourse today were steady, the effect of the Russian defeat on the Sea of Japan being offset by persistent reports of political changes.

The diplomats agree that Russia must decide whether the peace negotiations shall begin. The idea that there is any concerted movement among the powers to force mediation upon the belligerents is rejected.

The United States is mentioned as the only power which might possibly undertake such a delicate role, but President Roosevelt's attitude against taking any action, except at the request of Russia, is well known.

The suggestion comes from Paris, however, that President Roosevelt might be induced to act upon the initiative of Foreign Minister Delcasse, France, while strongly urging Russia to make peace, being in no position to initiate direct action.

Attempts during the afternoon to secure confirmation in court circles of the report that the Emperor had decided to summon a Zemsky Sobor met with the positive assertion that a definite decision had not been reached.

THIEF DIES OF GRIEF

"Jimmy" Hope, Leader of Bank Robbers, Passes Away.

NEW YORK, June 2.—James Hope, otherwise known as "Jimmy" Hope, leader of the band which robbed the Manhattan Bank in this city of nearly $3,000,000 in money and securities thirty years ago, is dead at his home here, aged 69 years.

His wife said today that he died of grief, broken hearted because of the publicity which constantly kept his record alive.

ATTEMPTS SUICIDE

Wealthy Californian Arrested For Striving to End His Life.

NEW YORK, June 2.—Louis A. Cohn, 46 years of age, a retired merchant, who came here a year ago from California, where he is said to have made a fortune, was found half suffocated by illuminating gas today in his apartments in the Hotel Highland.

He is under arrest, charged with attempted suicide. He will recover.

Cohn was injured in an automobile accident at St. Louis a year ago, and has not been well since.

WHO WILL TRY FRAUD CASES

Government Not Pleased With Assignment of Judge De Haven.

WASHINGTON, June 2.—The designation by Judge William B. Gilbert, of the Ninth Judicial Circuit of Judge de Haven of the Northern District of California, as presiding judge in the trial of the land fraud cases in Oregon, has led to some embarrassment among officials here.

The recent death of Judge Bellinger, who was to have tried these cases, caused a vacancy in the Oregon district.

It practically had been determined by the President and Attorney General that Judge Hunt of Montana should succeed Judge Bellinger in the trials and that the appointment of Judge Bellinger's successor should not be made immediately.

At this point Judge Gilbert, exercising authority which he supposed he had directed that Judge de Haven should try the cases. This was displeasing to officials of the Department of Justice and a telegram was sent to Judge Gilbert by Attorney General Moody inquiring by what authority he had directed that Judge de Haven should try the cases.

Thus far no reply has been received to that telegram. What the result of the situation will be is uncertain and whether the action of Judge Gilbert will be overruled may depend on the reply he makes to the Attorney General's inquiry.

SALOON QUESTION

Vote is Being Taken in Los Angeles Today.

LOS ANGELES, June 2.—The votes of Los Angeles will determine at the polls today whether a municipal ordinance abolishing all saloons in the city limits shall become effective.

The campaign has been one of the most active in the history of the municipality and the leaders of each side express equal confidence in the result.

In order that there might be no excuse for drunkenness today the saloons and cafes closed at 6 o'clock last night and will not be reopened until this evening.

A very large vote is being cast, the indications being that it will exceed that of the Presidenbal election.

There has been no disturbance at any of the polling places and though rumors of illegal voting are heard here and there, no arrests have been made. The workers of the "wet" and "dry" parties are out in full force, many of the advocates of the ordinance being women.

JAPANESE MAKE AN ATTACK

ST. PETERSBURG, June 2.—General Linevitch, in a dispatch to Emperor Nicholas dated May 31, said:

"On May 29, the Japanese began an advance and attacked our troops in the valley of the Tsein river, about three miles beyond Fenshu Pass, which remained in our hands."

CROP BULLETIN.

WASHINGTON, June 2.—A cotton crop bulletin issued by the Department of Agriculture today shows that the acreage for the entire belt has decreased 11.4 per cent. The average condition is given as 77.2.

ROOSEVELT TO TALK OF PEACE.

COUNT CASSINI.

WASHINGTON, JUNE 2.—COUNT CASSINI, THE RUSSIAN AMBASSADOR, HAS MADE AN APPOINTMENT WITH THE PRESIDENT FOR 2:30 O'CLOCK THIS AFTERNOON.

IT IS UNDERSTOOD THEY WILL DISCUSS THE ENTIRE EASTERN SITUATION IN THE LIGHT OF RECENT DEVELOPMENTS.

CASTRO READS MESSAGE TO CONGRESS.

Says Differences Between United States and Venezuela Are Settled.

CARACAS, Venezuela, Thursday, June 1.—President Castro read his message to Congress today. He said "that the Venezuelan Government had maintained good relations with foreign countries in the degree their respective representatives desired. Therefore the relations of Venezuela with all countries were relatively cordial.

"The Government had acceded to the desires of the respective representatives of foreign countries as far as justice, equity and the dignity and honor of the nation permitted.

"On the other hand, Venezuela had duly paid the allies the amounts peremtorily demanded by them—30 per cent of the customs duties collected at La Guayra and Puerto Cabello. When the claims of the allies had been paid the 30 per cent of the customs duties of La Guayra and Puerto Cabello would be devoted to the payment of the claims of the other powers which had been presented pacifically.

"The Government of Venezuela had twice sent General Antonio Velutini to Europe to make new arrangements with her creditors in regard to her internal debt. I have the satisfaction to announce that such arrangements have been already made, that the agreements have been signed and that the agreement relating to the Disconto Bank of Berlin has been ratified by the German Government. As soon as it is referred here General Velutini hopes that the British Government will also ratify the new arrangement made for the payment of the British debt.

"I consider this matter to have been definitely settled with the German and British holders of Venezuelan bonds. These measures are exceedingly important to the credit of Venezuela and in promoting tranquility and harmony with foreign nations. Venezuela, it will therefore be seen, is strictly executing the terms of the protocols.

"With the United States, through causes foreign to our will and without the least responsibility on our part, we have, had a slight difference, but the discussion of the questions seems to have made the facts clear to the American Government, judging from the measures the said Government lately passed in favor of our good and cordial friendship. Those questions refer to the Bermudez and Orinoco companies. The latter have already been adjusted under the protocols, but nevertheless Mr. Bowen desired a new arbitration. The Government could not accede to this, as the sovereignty and independence of the republic were involved."

IT'S POPE'S BIRTHDAY

Receives Subjects Greetings From all Over the World.

ROME, June 2.—Cardinal Respilhi, vicar general of the Pope, today inaugurated the Eucharistic Congress which was attended by six thousand members. In so doing the Cardinal delivered a speech saying that in the Basilica of St. John Lateran is preserved the table at which Christ was seated at the Last Supper which originated the Eucharistic sacrament.

Continuing the Cardinal said it was proposed to collect money throughout the world to provide funds sufficient to defray the expenses of inclosing the table in a rich setting.

This being the Pope's seventieth birthday he received greetings from all over the world, but according to his own assertion what he enjoyed the most was the lunch with the Sisters who presented him with some beautiful flowers.

OFFICIAL GIVES UP HIS OFFICE

PHILADELPHIA, June 2.—William H. Baker, assistant director of public works, today, by request, tendered his resignation to Mayor Weaver. This is the first move on the part of the Mayor of what he terms "a general shake-up" in the departments which come under his jurisdiction. Baker was known as an "organization" man. The salary of the office is $4000 a year.

Assistant Director of Public Safety Alexander Colville also tendered his resignation today by request of the Mayor.

Former Postmaster Thomas L. Hicks was appointed to succeed Baker as assistant director of public works.

JEMTCHUG WENT TO THE BOTTOM.

Japanese Attacked Protected Cruiser and She Sank in One Minute.

TOKIO, June 2, 10:30 p. m.—Admiral Togo, telegraphing yesterday says:

"The ships sent northward to search for Russian ships returned yesterday. The cruisers Iwate and Yakumo and other vessels sent southward to find Russian ships returned today. They thoroughly searched the Shanghai course from Tsushima and vicinity, but on both sides found no trace of the Russians."

Admiral Shimamura, on board the cruiser Iwate, reports:

"During the battle on May 27, at 3:07 p. m. the cruiser Iwate vigorously attacked the protected cruiser Jemtchug at a distance of 3,000 meters. The Jemtchug sank in one minute. The loss of the Jemtchug is therefore confirmed.

"During the engagement fire broke out on the Jemtchug and smoke concealed the hull of the vessel. Consequently the remainder of our fleet were unable to see the ship."

JAPANESE TO BEGIN ACTIVE CAMPAIGN.

TOKIO, June 2, noon.—With the destruction of Russia's naval power interest is returning to military operations on land. Togo's victory tremendously alters the military situation and removes all limits to offensive operations against Russia's martime provinces. It is now possible to effectively close Vladivostok, seize Sakhalien, the mouth of the Amur river, Kamtschatka and any point between the Tumen river and the Arctic Circle that the Japanese may desire.

A foreign military observer, discussing the question with the correspondent of the Associated Press, says:

"Togo's victory may drive Russia away from the Pacific coast of Asia. Japan now has a free hand in Russia's maritime provinces and her offensive capability is limited. Nothing bars the way except the Russian force at Vladivostok, whose speedy isolation is possible. The Amur river is open to Japan and Russia's defensive capability is now entirely limited to the capacity of the Chinese-Siberian railway."

MRS. HAYWARD IS DEAD

AGED WIDOW OF THE MINING MILLIONAIRE PASSES AWAY IN CONNECTICUT.

A dispatch from Greenwich, Conn., announces the death yesterday of Mrs. Alvinza Hayward, widow of the late Alvinza Hayward, famous for, the magnitude and success of his mining operations.

Mrs. Hayward, who had long passed her eightieth birthday, had been in feeble health for several years. She had been failing rapidly for some months, and her death was not unexpected by her relatives.

Mrs. Hayward was a woman of rare strength of character, and was remarkably sagacious in business matters. Her husband owed not a little of the success he achieved in his business and mining ventures to her sound counsel, which she never obtruded upon others, however. She came to California from Michigan in the early days, with her husband, and has resided here almost continuously since. She leaves an only daughter, Mrs. Andrew H. W. Rose, who is prominent in San Francisco social circles. Mr. Rose is prominent in business circles, being a director of the Contra Costa Water Company. He is a brother of Mrs. William J. Dingee.

Mrs. Hayward leaves a large estate, a large portion of which reverted to her on the death of her husband. Among other fine properties she owned was the new Hayward building on the corner of California and Montgomery, which is known since it was sold a few months ago as the Kohl building. Mrs. Rose is her only living child, and will probably inherit the bulk of her estate.

CHEER FRENCHMEN FOR FIRST TIME

BERLIN, June 2.—The French delegates to the wedding of the Crown Prince Frederick William arrived today and were cheered by a large crowd. This was probably the first time in a generation that Frenchmen have been cheered in the streets of Berlin. The Emperor called on them later and also called on Grand Duke Michael of Russia, the representative of Emperor Nicholas, who arrived in Berlin today.

THEATERS BURN IN PITTSBURG

People Gotten Out of House Before Told Danger.

PITTSBURG, June 2.—The Avenue Theater, which has been closed for several weeks, is on fire. Adjoining the Avenue there is the Grand Opera House where a matinee is in progress. There is no excitement in the Grand Opera House whatever.

The theater was about half filled and the ushers went through the audience and tapping the people on the shoulders, told them to quietly leave.

All got out safely.

Both houses are now burning and a general alarm has been sounded. The flames are coming out from all sides and it is feared both buildings will be destroyed.

WILL WATCH THE FRENCH TROOPS

WASHINGTON, June 2.—It is announced at the War Department that Lieutenant General Chaffee, chief of staff, and Brigadier Generals William S. Crozier and Franklin Bell will represent the United States at the maneuvers of the French troops. The invitation to send United States army officers to that country was extended to Secretary Taft by the French Ambassador.

IN HONOR OF GEO WASHINGTON

BUDAPEST, Hungary, June 2.—The National Club, at a general meeting yesterday, decided to erect here a statue in honor of Washington as an evidence of its appreciation of the action of the citizens of Cleveland, Ohio, in erecting a statue in honor of Kossuth in that city.

TAKES ACTION IN FAVOR OF ARBITRATION

Platform Adopted by International Conference —Praise Given Roosevelt.

LAKE MOHONK, N Y., June 2 —A platform of principles setting forth the achievements and purposes of the international arbitration movement was adopted today by the International Conference on Arbitration The platform is as follows

"The International Conference on Arbitration expresses its gratification over the advances in the settlement of disputes between nations during the past year Numerous special treaties of arbitration have been concluded and are now in force The Hague Convention commands increasing confidence among civilized peoples, its purpose and scope are better understood, its provisions have been resorted to with success in cases of great difficulty, as in the settlement of the North Sea incident, and we now have confident assurance that the tribunal which it has established will become of increasing importance in maintaining the peace of the world

WAGE EARNERS

"The interests that contribute to the promotion of the cause are ever broadening Those of the wage earners are finding emphatic expression, commerce is keenly sensitive to disastrous interruptions by war, whether near or remote the promoters of religion and philanthropy are alarmed at the hindrance of their work by every disturbance of international peace and the sense of human brotherhood is increasingly felt and appreciated throughout the world These signs of promise show that the long darkness of barbarism is fading away and that the bright day of universal peace is dawning indeed

PRAISE PRESIDENT

"We are highly gratified at the efforts of President Roosevelt in promoting the causes of international peace and justice, and we rejoice in his call for a second conference at The Hague We confidently expect that any questions of international law that are now vague or undermined will find wise solution We also hope that the conference will frame a general treaty of arbitration that may more effectively meet the requirements of the situation than any special treaties yet proposed have done and we will be gratified if the indefinite and elastic exceptions of matters of national honor and of 'vital interests' shall be substantially modified

FAVOR TREATY

"We earnestly hope that if such a treaty is proposed the treaty making authorities of our government will speedily effect its enactment for this country We view the treaty now in force between the kingdoms of Denmark and The Netherlands to submit all their differences to arbitration, as presenting the ideal toward which we are moving

"The evolution of the movement for universal peace clearly points to the early establishment of an international parliament with at least advisory powers as a necessary agency in its fulfillment and we renew our declarations of last year in reference to this We feel that it is not expedient for this conference to pass any judgment upon the plans of organization of such a parliament beyond the necessity for the representation of all civilized nations therein

COMMEND WORK

"We heartily commend the work of the Inter-Parliamentary Union and rejoice in the zeal and efficiency of the American group of its membership We rejoice that some strength has been given to the cause of international arbitration by the fact that no country has ever yet repudiated an arbitration award We believe that the decrees of the international court will be best enforced by the power of public sentiment and by the fear of the loss of world respect on the part of any nation against whom any award may be made The formation of public opinion is an important means for the promotion of every good cause and we desire to encourage all agencies that will further the interests of international arbitration Especially do we commend the awakening of the students of our universities and colleges in this important matter as well as the instruction of all the children in our schools'

IS THIS TO BE A SECRET MARRIAGE?

Joseph W. Kramm Takes Out License to Wed; Mother Knows Nothing of Ceremony.

Joseph W Kramm son of the late Charles Kramm Sr founder of the old Oakland brewery and brother of the late Councilman Charles Kramm Jr founder of the present Anchor brewery of this city according to the San Francisco papers has taken out a license in that city to marry Miss Annette D Hanson of 311 Railroad avenue Alameda Mr Kramm is nearing his twenty fifth and Miss Hanson has attained her twenty second year

The marriage it is presumed took place today because Mr Kramm had not reported at the Anchor berwery up to a couple of hours after noon today

But at the home of his mother Mrs Augusta Peterson 311 Telegraph avenue no positive information was entertained on the subject

Mrs Peterson admitted that she knew her son contemplated marrying Miss Hanson but at the same time expressed disbelief in the accuracy of the marriage license record of San Francisco in so far as the taking out of such a license by her son Joseph was concerned

She said that while the record showed that the license in question had been taken out yesterday her son Joseph came home last night remained at home all night and left home this morning without referring to the taking out of the marriage license or his prospective nuptials

NOT ANNOYED

This however did not occasion any annoyance to Mr Kramm's mother because as she expressed it to a TRIBUNE reporter she had told her son that whenever he wanted to get married to do so and tell her nothing about it

This Mrs Peterson said was no evidence of hostility on her part toward her son his prospective nuptials or his intended bride She wanted to leave him free to act because his own happiness or unhappiness depended upon his acting according to his own free will as he would have to lie on the couch of his own making

KNOWS THE BRIDE

Mrs Peterson admitted that she knew Miss Hanson had not objected to her as a prospective daughter in law and was also acquainted with the father of the young lady H L Hanson who is an attache of one of the steamers plying between San Francisco and Panama

Mrs Peterson admitted that her son in anticipation of his marriage had now in course of erection at the intersection of Fifty first street and Shattuck avenue a cozy home for himself and bride but denied that the couple had rented furnished apartments to be occupied by them until they should be able to take possession of the home which is rapidly being put in readiness for their occupancy Both son and his wife were welcome she said to make their home with her until they could take possession of their own abode

Joe Kramm is one of the best known and most industrious of the young men of German parentage in this city He is industrious and frugal and the best wishes of many friends go with him in his new departure

BRIBERY INQUIRY

Grand Jury Investigates Story Told By Labor Leader.

CHICAGO, June 2 —Members of the Grand Jury are endeavoring today to gather more complete and later details of the bribery stories told by President Shea of the Teamsters Union and its former president, Albert Young

As the statute of limitation has run against most of the alleged bribery matters concerned which Shea and Young testified, the investigators are prepared to search for later overt acts connected with the so-called 'outlawed' conspiracies

To this end the Grand Jury has directed the docket clerk to issue subpoenas for the records of the coal and other teamsters unions

MORE RIOTING.

Rioting broke out afresh today in the lumber district when a wagon belonging to Rittenhouse and Embree was attacked by a crowd of 100 at Thirty-second street and Center avenue

The mob threw stones and coal at the non-union teamsters Two policemen were slightly injured The police were obliged to fire several shots into the air in order to keep the crowd at bay No arrests were made

It was reported today that the joint council of teamsters had been asked to consider a plan to appoint a committee of seven teamsters with full power to settle the strike without regard to the express drivers, and to confer with a committee of a like number from the Employers' Association The motion was not disposed of but it is understood it is to be given further consideration tonight

PROPOSE SETTLEMENT.

A committee of the Chicago Team Owners' Association aiming to induce the teamsters to arbitrate the question of delivering goods to strike-bound houses held a meeting in Mayor Dunne's office today with President Shea, of the teamsters, and Emmett Flood, organizer for the Federation of Labor Owing to Shea being summoned before the Grand Jury, however, the conference was adjourned until evening

It was arranged that the joint council of the teamsters national organization should be present In case the decision is adverse, it is said the teamsters will have to call the strike off or have an addition of 9,000 to the ranks of the strikers

THREATEN TO STRIKE.

The four hundred drivers of the Parmlee Transfer Company threaten to strike unless they get an increase of wages, and the stablemen employed by the same corporation may also go out for the same reason

Before the Grand Jury, which is investigating allegations of graft, President Shea supplemented his bribery charges today by declaring that an attempt at bribery was made by some of the big packers during the progress of the packing house strike

NO TERMS FOR PEACE

Russia Not Yet Ready to Call a Halt on War.

PARIS June 2 —The report that M Bompard the French Ambassador to Russia who has been here on leave of absence is hastening back to St Petersburg as France has agreed to ask the concert of the powers to bring about peace between Russia and Japan is said by the officials here to be incorrect

M Bompard it appears is not returning to St Petersburg He attended the reception given by President Loubet last night in honor of King Alfonso where Mr McCormick the American Ambassador had a long talk with the French Ambassador M Bompard intends to remain here a week of ten days which would seem to confirm the reports that the peace situation at St Petersburg has not reached a decisive state

There is reason to believe that he shares the views of other diplomats having personal acquaintance with the Russian officials that the peace outlook is not bright

The trend of opinion in this well-informed quarter is that Russia will put off decisive action until after the next land battle In the meantime it is anticipated that tentative peace projects are likely to be put forward from various sources leading to more or less sounding among the powers but diplomatic circles here are satisfied that these movements will not eventuate while General Linevitch's forces remain intact However it is said that the departure of the Grand Duke Michael (brother of Emperor Nicholas) to attend the wedding at Berlin of Crown Prince Frederick William may prove an important factor in the peace situation

The following official note was issued today

M Bompard is still in Paris Therefore it is not true that he has been recalled to St Petersburg It is equally incorrect that France has addressed an appeal to the powers with the view of consulting them on the situation

HARRIMAN ACCUSED

Hyde, in Equitable Meeting, Makes Most Violent Utterances.

NEW YORK June 2—The Evening Post's reports of the Equitable Life meeting contains the following

Mr Hyde was on his feet fully an hour and attacked those who had made allegations against him with the utmost bitterness He named in particular E H Harriman and made him the object of the most violent of his utterance It was also recalled in connection with Mr Hyde's attack on Mr Harriman today that the young vice president had declared at last Wednesday's meeting of the directorate that he had been betrayed by his friends

Mr Alexander's defense was more moderate in tone and did not deal in personalities He declared that the report of the Frick committee fell short, particularly in that it did not deal with the question of mutualization He declared that the alleged waste and extravagance in the management of the society's affairs and in the conduct of his office were the results of the system and one man power control of the society's affairs

"From two distinct sources the report came to the Evening Post today that E H Harriman had made an offer to Mr Hyde for the latter's stock in the Equitable since the report of the Frick committee was made on last Wednesday Efforts to verify these reports were unsuccessful Neither Mr Hyde's friends nor Mr Alexander's would discuss them"

DRIVEN FROM TOWN BY GREAT FLOOD

CLEVELAND ON FISHING

Former President Cleveland in a defense of sport in the current number of the Country Calendar replies to scandalmongers who declared his hunting expositions were only a cloak for dissipation In the course of his article the ex president says

So also when people more mistaken than malicious, have wagged their heads in pitying fashion and deprecated my guiltiness of hunting and fishing frivolity in high public service I have found it easy to lament the neglect of these amiable persons to accumulate for their delectation a fund of charming reminiscence of sport while at the same time I have sadly reflected how their dispositions might have been sweetened and their lives made happier if they had yielded something to the particular type of frivolity which they deplored I hope it may not be amiss for me to supplement these personal observations by the direct confession that, so far as my attachment to outdoor sports may be considered a fault I am as related to this special predicament of guilt utterly incorrigible and shameless Not many years ago while residing in a community I found that considerable indignation had been aroused among good neighbors and friends because it had been said to me that I was willing to associate in the field with any loafer who was the owner of a dog and a gun I am sure I did not in the least undervalue the extreme friendliness of those inclined to intervene in my defense, and yet at the risk of doing an apparently ungracious thing I felt inexorably constrained to check their kindly efforts by promptly conceding that the charge was too nearly true to be denied

BITS ABOUT WRITING

The Rev Samuel Peters was the man who made Connecticut's blue laws famous by their publication in his history of that State In that interesting volume the following original bit of natural history is to be found In the Connecticut river 200 miles from Long Island Sound is a narrow of five yards only, formed by two shelving mountains of solid rock whose tops intercept the clouds Through this chasm are compelled to pass all the water which in the time of floods bury the northern country Here water is consolidated without frost, by pressure by swiftness, between the pinching sturdy rocks to such a degree of induration that an iron crow floats smoothly down its current. Here iron, lead, and cork have one common weight, here, steady as time and harder than marble, the stream passes, irresistible if not swift as lightning'

This quatrain was written by Governor Hoch of Kansas and first printed in the Marion Record of which Hoch was editor

"There is so much bad in the best of us
And so much good in the worst of us
That it hardly behooves any of us
To talk about the rest of us'

Gov Hoch is the great crusader against the Standard Oil Company in Kansas Curiously enough, some months ago John D Rockefeller used these lines as a text to a little talk to his bible class in Cleveland. He said he had found them in a New York paper and was pleased with their humanity

Of Gray's 'Elegy' a contemporary reviewer wrote "The excellence of this little piece amply compensates for its lack of quantity" That and nothing more of "In Memoriam" a contemporary estimate was that its simple but touching verses were evidently inspired by "the full heart of the widow of a military man.

Laborers who are worthy of their hire usually think their hire should be higher.

CHINESE CALLS ON GIRL

VISITS HOSPITAL, BUT IS NOT ALLOWED TO SEE MAE GREENLEAF.

Tom Gin Dup the Chinese who in some way was related to the causes which led to the attempted suicide of Mae Greenleaf a white girl, was a caller at the Receiving Hospital this morning to inquire as to her condition and wished to be allowed to see her which however was denied as she had expressed a wish to see no one but one or two intimate friends

Her throat is very sore from the burning of the carbolic acid that she took in her effort at self destruction but she is progressing favorably and the doctors state that she will recover The pair have been more or less together for several years Gin Dup being an expert cook while the girl acted as waitress in different resturants conducted by him

They were in Fresno about a year ago and got into trouble with the authorities on the complaint of the Greenleaf woman, who said that Gin Dup was withholding her wages Upon the recommendation of the police there he paid her sufficient to get back to Oakland

The cause of her attempted suicide is stated to have resulted from a quarrel the pair had had

SCIENCE NOTES

Great things are expected from the submarine telephone by officers of the United States navy The principles underlying it are very different from those of wireless telegraphy In the latter the telegraphic impulses are transmitted through the air or either by electricity In the submarine telephone sound waves travel through water unaided by any electrical force Water being denser than air acts as a better sound conductor It transmits sound four and a half times as fast as air 4100 feet a second being the rate in the atmosphere while in the water it is 4712 feet, or almost a mile a second

Dismal weather is prophesied for Europe as an aftermath of the recent Indian earthquake It is recalled that after the eruption of Mount Pelee England had two disastrously bad summers from a meteorological point of view and the inhabitants of that island are now warned to expect a wet and cold year Almost continual rain and even snow has been England's portion since the earthquake occurred

Naturalists have discovered a wasp that uses a pebble to pound down the earth over her nest. It is believed that this is the only one of the lower animals that makes use of a mechanical instrument.

MAY WITHDRAW DIVORCE

ATTEMPT BEING MADE TO RECONCILE THIS COUPLE IN DISPUTE

Efforts at reconciling Margaret and William O Brien who now have a divorce suit pending in the courts were about brought to a conclusion in Judge Melvin's court this morning and it is believed that the efforts will eventually lead to restoring them to their once happy home

O Brien is employed at the Mare Island Navy Yard and the pair have been married for many years and have a grown up family and it is through the efforts of the children that a meeting of their parents was brought about

The matter was not concluded this morning but an order was made allowing Mrs O Brien $75 for her lawyer and $50 for expenses and she agreed to allow her husband to draw $ 00 he had on deposit in the bank and which she had tied up with an attachment

The case was then put over for a week and in the meantime it is believed that the suit brought by the wife will be dismissed She charges her husband with desertion and cruelty

IS DISMISSED BY POLICE BOARD

W. FLEMMING, GARDENER, LOSES POSITION—BIDS ARE ACCEPTED.

At a special meeting of the Board of Police and Fire Commissioners this morning W. Flemming, a gardener employed at Lafayette Square, was dismissed for insobriety and Robert Johnson, an extraman in the Fire Department, appointed to his place.

James Dunn was appointed to the position made vacant by Johnson's promotion.

FIREMAN RESIGNS.

H. L. Brubaker, extraman on truck No. 3, this morning tendered his resignation, to take effect on June 1. Fred Schwarling was appointed to the vacancy.

BOARD OF WORKS.

The Board of Public Works also held a brief session, at which the bids for school supplies, as recommended, with the exception of rubber hose, by the Board of Education were accepted. Instead of giving the Revere Rubber Company of San Francisco a contract to supply 1,000 feet of hose to the city it was given to Smith, Brown & Co. of this city.

Bids for sweeping the streets by machinery or by a patent device will be opened by the board on June 28.

BAD FOUNDATION.

City Engineer Turner reported that the foundation of the wall and fence around Lake Merritt at the foot of Jackson street was in such a state of bad repair that emergency measures should be applied. Superintendent of Streets Ott was accordingly authorized to go ahead and make the repairs.

The wood in the piles had been perforated by the action of the tiny lemoria, which makes its home on this side of the bay, and was rendered utterly useless and dangerous. The repairs will cost about $500.

CAN YOU LOCATE AUGUST HEDLUND?

Mrs. August Hedlund of 308 West B street, Iron Mountain, Mich., has written Chief of Police Hodgkins asking him to locate her husband in this city and ask him to send funds home as she is sick and has six children to care for.

"He has been away from home for the last six years," the wife writes. "I have been able to make a living for my children by taking in washing, but now that I am sick I need help and I hope you can find him."

DEALS RECORDED

A contract for the erection of a two-story house on Lake Merritt Boulevard to cost $3,360 has been let by Richmond Davis to J. E. Bigelow. The work to be completed in seventy-five working days.

Louise H. and Emma E. Mahony have borrowed $10,500 from the Regents of the University of California on their property on the south side of Tenth street.

J. W. Donathan has given J. Doran a chattel mortgage on two horses and a colt at the Emeryville race track for $300.

Gabrille Fishbeck has entered into a contract with Delaney and Randlett for the construction of a gothic cottage to cost $2,750.

John J. Crawford has given the Alameda Savings Bank a trust deed to property on Central avenue near Union as security for a loan of $8,000.

A contract has been let by J. C. Talbot for the erection of a flat and store on East Fourteenth street near Twenty-third avenue to cost $1,825 to N. Christiansen.

KING VISITS THE MILITARY SCHOOL

ALFONSO IS HAVING A GOOD TIME IN PARIS.

PARIS, June 2.—King Alfonso and President Loubet today visited the military school at St. Cyr, where they witnessed some cavalry revolutions, and drove thence to the Palace of Versailles, later visiting the Aero Club and witnessing the automobile procession and horse races at the Bois de Boulogne course. The King tonight will attend the performance at the Theater Francais, fronting the scene of the recent attempt on his life.

PLANS COMPLETE FOR WHIST TOURNEY

All is in readiness for the whist tournament to be held under the auspices of Uncas Tribe No. 137, I. O. R. M., Monday evening in Pythian Hall. A sufficient number of tickets had been sold prior to May 29 (upon which date the prizes were placed on exhibition in Taft & Pennoyer's windows) to assure success. So great a number of those who viewed the prizes have since purchased tickets that additional accommodations were necessary. So perfect are the arrangements that, the number of players notwithstanding, ease and comfort are certain.

Moltke A. Schafer, the indefatigable chairman of the committee of arrangements, has the names of Dr. George G. Reiale, R. A. Smith, William E. Palfreeman, Dr. Carl E. Curdts, H. W. Clark, H. A. Whitney, Dr. George W. Burgess, James B. McKeon, Ed Robinson, Frank Grube, Ernest Wilton and others upon his list of scorers, and the whole corps of assistants for the evening has been chosen with the same care. Under the committee's able management there is no possibility of a hitch in the program.

The attention of the public is called to the fact that play will begin promptly at 8:30.

TAKEN FROM JAIL TO DIE.

Sarah McElhatton, a young woman who, after being divorced by her husband a year ago, trod the primrose path, died yesterday at the County Infirmary. A series of hemorrhages were responsible for her death. The unfortunate woman has a child, which is supposed to be in some institution about the bay of San Francisco. The woman was taken from the City Prison several days ago and placed in the County Infirmary where it was thought that good treatment would restore her to health. Her former husband is supposed to be in Sisson. The deceased was 29 years of age.

DOGS POISONED.

Mrs. E. Lyons, residing at 804 Center street, reported to the police this morning that several valuable dogs, belonging to her had been poisoned on May 31st. She has asked the police to search the miscreant out so that proper punishment may be meted out.

BOAT IS STOLEN.

J. P. Shaw, residing at 470 Twenty-ninth street, reports to the police that a shell he was building in the rear of premises at 513 Twentieth street had been stolen on May 27th. The boat was intended for use on the Estuary.

SERVIA RECALLS MINISTER

NOT SATISFIED WITH WAY OFFICIALS WERE TREATED.

CONSTANTINOPLE, June 2.—Servia has notified Turkey that she will recall her minister from Constantinople unless satisfaction is given by June 12 for recent violation of the Servian consulate at Monastir, (Macedonia). It appears that the local police searched the consulate and seized certain papers. Servia demands the dismissal and further punishment of the chief of police and that an official visit will be paid to the consulate by the governor of Monastir with an expression of regret on the part of the government for the occurrence.

THE WAY TO WOMANHOOD.

(From Harper's Bazar.)

Childhood and maidenhood have always an attractive beauty of their own. Go where you will, in strange and half-barbaric lands, you find the touch and grace of freedom that charms you in

"Little Indian, Sioux or Crow,
Little frosty Eskimo,
Little Turk or Japanese."

But with maturity you look for something more, and how many are the countries in which you find something less—a womanhood from which the charm of wild youth has vanished without a compensation. These are the countries in which a false social order, an imperfect and partial religious rule, a low national aspiration, a split sense of humanity, has blocked or bewildered the upward path for half the race.

To discover that path and keep it clear and open, so that the feet of the young maids may walk in it with joy, is one of the vital problems of civilization. It is not woman's problem only, but man's also; and in some ways it presses upon him more closely than upon her. For as the arrangement of the world's work and the making of the world's laws still lie, for the most part, in his hands, so it rests with him to remove the hindrances and obstacles, false standards of propriety, and ill conditions of life, that woman may have liberty and incentive to rise to her full development. Never yet was a fine womanhood unfolded in a country where the dream and the desire of her fulfillment were not cherished in the heart of man.

ODDITIES.

Describing "the American language," a writer points out the real difference between the speech of the educated American and the educated Englishman. "You may talk for ten minutes to a professor from Harvard without being conscious of strange speech," he says, "only the professor's voice is pitched slightly higher than your own. For the German speaks from his diaphragm, the Englishman from his chest, the American from his throat and the Frenchman from his palate."

In time of war the foreign-born pilots in British waters would be of great service to Britain's enemies. Fifty-nine pilotage certificates for the London district and Thames and Medway approaches are held by foreigners, of whom thirty are Dutch, thirteen Swedes, eight Germans, three Danes, three Russians and two Belgians. Englishmen are not allowed to obtain pilotage certificates in foreign ports.

An Austrian meteorologist, J. N. Nowak, who forecasts the weather by means of a plant called "abrus precatorius," discovered by him in Mexico many years ago, will erect his first weather stations in Vienna and London. Nowak maintains that his forecasts are obtainable from three to eight days ahead.

A large lump of butter has been found buried in an Irish bog. No one knows how old it is. It is thought that it is at least 100 years old, possibly ten centuries. The butter is said to be in excellent condition.

EXTRA CLOSET SPACE.

If your room is lacking in closets, a clever idea is to have built a frame work simulating a high book-case, have your books and poles placed in the top and hang cretonne curtains in front. Little pictures and vases on top, no one would ever suspect that it was anything but a book-case, the whole end of a room can be fitted up in this way.—Vogue.

RECOMMENDS NEW OFFICERS FOR EQUITABLE.

Frick Report Said to Call For Selection of Heads to Insurance Company.

NEW YORK, June 2.—A director of the Equitable was quoted today to the effect that the Frick report recommended that the directors appoint a committee of five to select a new president, first vice-president and second vice-president to succeed Messrs. Alexander, Hyde and Tarbell.

The Equitable directors took a one-hour adjournment at 1:25. The early session was taken up principally with statements made by President Alexander and Vice-President Hyde opposing the adoption by the directors of the Frick committee report. Mr. Ingalls, a member of the Frick committee, was asked what he thought would be done with the Frick report. He replied that he believed it probably would be defeated by a vote of 20 to 16.

Mr. Frick said he could not tell when the committee report would be given to the public.

NEW YORK, June 2.—A new alignment of the parties concerned in the Equitable Life Assurance Society appeared to have been established today when the directors' meeting began. This meeting was expected to be most exciting, and it was generally expected that the directors either would decide to make public the report of the Frick investigating committee, with a resolution that its recommendations be carried, or that a number of directors would resign.

A friend of Vice-President James H. Hyde today gave out a statement to the effect that the report of the Frick committee probably would be voted down. This plan, it was said, had the support of President James W. Alexander, who heretofore had opposed Mr. Hyde.

A conference between Mr. Hyde and his friends and attorneys was held this morning, and it was noticed that neither E. H. Harriman nor Jacob H. Schiff attended, although up to the time of the presentation of the Frick report it was believed that Mr. Harriman and Mr. Schiff were strong supporters of Mr. Hyde. George J. Gould, however, attended the conference in Mr. Hyde's office.

Directors of the Equitable Life Assurance Society gathered at the society's building, 120 Broadway, early today to attend the meeting of the board of directors, scheduled for 11 o'clock. Intense interest was shown by all and there was active discussion of the Frick report in small groups of directors up to the time the meeting began.

Another topic of these discussions was a report that a gigantic scheme has been planned to obtain control of the society's immense capital holdings in the interest of Standard Oil financiers. That anything of the kind was in prospect was denied by Samuel Untermeyer, attorney for James H. Hyde. Mr. Untermeyer said:

"This report is too ridiculous for any comment from me. I need not take notice of it at all. It is perfectly absurd."

Mr. Hyde and Mr. Untermeyer were in consultation some time this morning prior to the adjourned meeting of the board of directors, which was to consider the report of the Frick committee.

The Hyde forces assembled in conference in Mr. Hyde's office before the meeting. Those present included Senator Depew, Samuel Untermeyer, George Gould, A. W. Krech, W. C. Gulliver, Winslow S. Pierce, H. C. Hartstick, John J. McCook, Brandish Johnson, D. H. Moffatt, H. H. Winthrop, William H. McIntyre and C. B. Alexander.

Melville E. Ingalls, of the Frick committee, called at the office of E. H. Harriman just before the directors' meeting began. Asked what he expected as a result of today's meeting, Mr. Ingalls said:

"I expect a hot old time."

Shortly before the directors' meeting a representative of William Nelson Cromwell, the lawyer, visited Vice-President Hyde's office.

ODD SAYINGS OF PRECOCIOUS YOUNGSTERS.

From the May Lippincott's.

From Way Back.

Two children stood with their noses flattened against a case in the Natural History museum.

"What's ee mama Injun doin,' Donnie?" asked the little girl.

"Her smashin' corn. She's the ol' squall," explained Don in a superior and convincing tone. "She's makin' the prefus' food."

A Good Reason.

Willie had been naughty and his father was going to whip him.

"My son," he said sternly as, switch in hand, he confronted the lad, "do you know why I am going to whip you?"

"Yes, dad," replied the little fellow, "it's because you're bigger'n I am."

An Alphabetical Marvel.

Little Irma had been on an excursion to her father's downtown office and saw for the first time a typewriter in use.

"Oh, mama," she said on her return home, "don't you know, I saw the funniest sewing machine down to papa's office. It sewed A, B. C's!"

Effervescent.

Little Bob had never tasted soda-water before, so knew nothing about the after effects of the foamy drink. Uncle Lewis took him to the corner drug store and "treated" him to a glass and Bobby gulped it down, and then in a moment put his hand to his face, saying:

"Oh, Uncle Lew, my nose feels like my foot is a sleep!"

A Logical Infant.

Little two-year old William lived in a city flat. Great was his desire to join in the play with the other children on the nearby terrace. His mother, fearful he should stray from home, forbade his leaving the steps of the house, telling him if he did the bears would get him. One day the minister chanced by when the children were at play and said:

"William, why don't you come down and play?"

"Mama said the bears would get me," said the boy.

"No William, there are no bears here. Go tell mama I said the bears would not get you."

William went.

"Well William, mama is sorry she told you a story; let us get down and ask God to forgive mama for telling a lie."

"No, mama," replied the boy, "you'd better let me ask Him. He might not believe you."

A Lovely Errand.

He was a cherubic youth of 4, with a beautiful, blue-eyed countenance and an angelic smile—the kind of boy that honest persons long instinctively to kidnap. He sat on the fence, swinging his heels and humming a kindergarten song.

"Oh you darling!" cried an impulsive young woman, pouncing upon him and giving him a hug. "Has your mother any more like you? Have you any little brothers?"

"Yep," replied the angelic boy, "got three. Me and Jack and Billy and Frank."

"Which one do you like best?"

"Jack, I guess," replied the youngster after a moment of deep thought. "Yep, I like Jack best."

"And why," asked the young woman, "do you like Jack best?"

"'Cause he did such a lovely errand for me once."

"What was that lovely errand?"

"He bit Billy on the leg," replied the sweetly serious cherup.

"Why," pursued the young woman, "didn't you do your own biting?"

"'Cause I hate the taste of Billy's legs," was the calm reply.

True to Her Promise

"Josiah," said Mrs. Chugwater, "what do you do at those lodge meetings you attend twice a month?"

"You don't expect me to tell you that, do you? Our proceedings are secret.

"A man oughtn't to have any secrets from his wife. What is the password?"

"I've taken a solemn obligation never to communicate that to any outsider."

"I'm not an outsider. A man and his wife are one. You have a right to communicate it to me."

Mr. Chugwater reflected.

"Well," he said, "if I repeat the password to you once will you promise never to ask me to say it again?"

"Yes."

"And you will never tell anybody else?"

"Never."

Whereupon he rapidly uttered the following astonishing word:

"Magellineleranorastimonardoaonnoolucabellinwansomanispastoaron."

Mrs. Chugwater kept her promise. She never repeated that password to a living soul.—Chicago Tribune.

AMERICAN WOMEN'S JEWELS.

ENJOY YOURSELF.

Another May! In flowered gown,
Laughing, she trips it into town—
A saucy maiden, dimpled, gay,
Who scatters buds along the way
And wreathes a cherry-blossom crown.

And April, with alternate frown
And smile, has let her courtiers down
In tears, and left us to obey
Another—May!

Oh! where's the tree that dares wear brown,
When green and white clothe king and clown?
Oh! where the sky that dares wear gray
When blue is free? Enjoy this day—
You may be sleeping six feet down,

DISMISSED FROM SERVICE

HEAD OF NEW ORLEANS POLICE DEPARTMENT LOSES HIS STAR.

NEW ORLEANS, June 2.—Inspector John Journee, head of the police department, was today dismissed from the service, as a result of an investigation of charges filed against him. At the trial today Ike Slumsky testified to the existence of a ring supported by tenderloin interests, which paid $200 a month to the police for protection.

IT COULDN'T HAPPEN IN GOTHAM

(From the New York Telegram.)

"No such rioting as is taking place in an American city (Chicago) today could occur in New York," says Police Commissioner McAdoo. "I could send out five fighting police captains who would have control within two days." Hate to appear boastful, but that's great. Couldn't the doughty five keep their hands in by running down a few burglars and murderers?

BIG AND LITTLE THIEVES.

(From the Brooklyn Eagle.)

There are men in Sing Sing who are serving long sentences for thefts of a few dollars. Yet one candidate has been released from that institution after serving three years for stealing a quarter of a million. Incidentally, he committed perjury and forgery. By these tokens the Milwaukee bank president who stole $2,000,000 or more will be sent to jail for nearly a week.

A WOMAN'S POLITICS

Man is always doing politics, and he is always upbraiding woman for following his example. There is one place, however, where a woman can do something politic for which she will not be upbraided. It is in a kitchen. Her cranky political husband can be won over on every occasion by a gas stove.

You see, it will help to keep the house clean; it will insure well-cooked meals on time; it will result in smaller expenses for the household; it will keep you in such a sweet temper that the house will appear to be full of sunshine all the time. If this is not enough to induce you to sell the old, cracked, unreliable coal stove that goes with the wind, to an old junk man, then your case is indeed hopeless.

WITNESS DRAWS FORTH ATTORNEY'S WRATH.

Lively Passage at Arms in the Slicer Will Contest on Trial in the Superior Court This Afternoon

There were pyrotechnics following the adjournment of the Slicer will contest last evening, and in dodging the relentless questioning by Attorneys Frick and Bradley, witness J. J. Victory was finally cornered on the question of how he came to know the contents of the will of the late Charles B. Slicer, which, he testified, he knew a week after it had been made out, and then said that he had found it out through a relative of a friend.

"What, do you mean to tell this court that a member of this bar has been divulging his client's affairs?" asked Frick, and Victory was not prepared to answer this question, but he had to make a settlement with an attorney, after the adjournment of court, and for a short time it looked as though the pair would fight it out on the field of honor. A resort to nature's weapons, however, was averted, but the attorneys are not through with Victory yet, and it is claimed that he is engaged in attempting the difficult feat of traveling the narrow limit between the devil and the deep sea.

Victory was the star witness for Mrs. Clara Shelly, the pretty niece of Slicer, and to whom he had promised to leave a large part of his estate, and who is now engaged with several of the other nephews and nieces in an attempt to have the will set aside. Victory says that he was a friend of the Slicers, and that the old man made him promise that he would see that Harriet Carpenter, his sister, should never get a dollar of his money and Victory promised that he would, and to this end he took the stand yesterday and gave it as his belief that through the use of morphine, which the old man was in the habit of taking, his sister and her children got him to make a will giving all of his property to her.

On the other hand, Frick and Bradley have a story from their clients to the effect that Victory was not anxious to break the will until they had refused to give him a piece of property located in San Francisco, as his share for not telling what he knew about Slicer and his will, and it was in pursuit of this idea that Frick yesterday began a searching examination of Victory in an endeavor to find out just what Victory did know and where he got his information, when finally the remark popped out that caused Victory to come up against the attorney.

Victory's passage yesterday, taken as a whole, was anything but what the witness' name implies. Owing to his willingness to talk, even Attorney George DeGolia was unable to hold him to the strict answering of his questions, and the result was that the record was filled with objections from opposing counsel, and the gratuitous remarks made by Victory. The case, however, has just begun and the interest in the disposition of the old man's dollars is increasing among those interested in the outcome of the suit.

Attorney George DeGolia, for the contestants, has the greatest hopes that he will be able to show that Slicer was incompetent to make a will and that in fact that by the instrument now offered for probate, he left his property to a sister and her children, for whom he had expressed a dislike all his life, while on the other hand, Frick and Bradley are equally sanguine that the onslaught made on the document is unwarranted.

BABE DROWNED IN WASHTUB

BODY FOUND BY MOTHER, WHO, IT IS FEARED, MAY LOSE MIND.

Little Alfred Alvares Jr., a year old baby was drowned yesterday afternoon in an old washtub which had been left standing in the backyard at the family home in San Leandro.

After the noon-day meal Mrs. Alvares allowed her little one to go into the yard and play with the other children. After an hour or so had passed, the mother, not hearing her little one's voice, went to the back porch and called him. She did not receive an answer, and went to where the other children were playing to see if they knew of his whereabouts.

No one had seen him, and as she was returning to her home again she happened to see the form of her little son head downward in the old washtub. When she reach the child she found it dead. Near by was the family dog who was accustomed to drink out of the tub, and it is supposed that the little one in trying to imitate the dog fell into the tub.

The mother is almost heartbroken over the sudden death of her child, and the attending physician fears that she will lose her mind.

EXPRESS THANKS OF KINDERGARTENS

Editor TRIBUNE—The ladies of the Associated Kindergartens composed of West Oakland, Central, North Oakland, Good Will and East Oakland Free Kindergartens, desire to express their deepest thanks and gratitude to Mr. Pillings, manager of Idora Park, for his kindness and generosity in giving them the use of the Park for the recent May Fete held on Saturday, May 27. Too much cannot be said in praise of Mr. Pilling's excellent management, able assistance and unfailing courtesy, and to him the ladies are largely indebted for the success of the affair.

Our grateful thanks and appreciation are also extended to the following young men comprising the Benedict and Bachelor baseball team, which lent such an attractive feature to the afternoon's entertainment, as well as to the umpire, Clay Hawbaker, president of the Oakland Baseball Club; Benedicts—Churchill Taylor, Dan Belden, William Hay, Mr. Turner, Harold Havens, J. J. Valentine, Walter Starr, Bernard Miller, James Kenna; Bachelors—Dr. Percy Gaskill, Seth Talcott, Samuel Knowles, Dr. Olin Hunter, Laurence Green, Dr. Charles Ayres, Seymour Phelan, Laurence Fox, William Knowles, Charles Bates, George Walker, J. Baumgartner.

And last but by no means least we gratefully acknowledge the kindly generosity of the press, which have devoted much space in advertising the Fete, and has ever given us its hearty co-operation and support in its columns.

MRS. W. T. VEITCH,
Chairman Executive Committee.
MRS. JAMES P. VANE,
Secretary.

ATHLETES THE BEST GUNNERS.

Many army and navy officers hold that rational athletics form a very valuable training for future soldiers and sailors. On the United States warship Wisconsin, flagship of the Asiatic squadron, is published a monthly publication called the Badger, which says: "In looking at the work done with our battery we find that Friel, one of our best baseball players, is the captain of the six-inch gun which made the best record on the range; McAndrews, our standby on the football team, was one of the pointers at the same gun. At another gun Smith, the captain of the team, fired a string which tied with McAndrews.

"Bringolf, Christensen and Lame, who defend the ball on the gridiron, fired three strings of record shots each from the thirteen-inch guns without a miss. With the six-pounders it took Ridge, our well-known pitcher, to fire the banner gun of the ship, while Lucid, whose value on the diamond we all know, takes the second place."

A man who demonstrates his ability in the field of sport and shows his enthusiasm and interest in athletics will invariably be found not wanting in the other duties he is called upon to perform. Training and development in one line means an increased efficiency in the other."

"LOVE THY NEIGHBOR."

Then one of them which was a lawyer, asked him a question, tempting him, and saying:

Master, which is the great commandment in the law?

Jesus said unto him: Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind.

This is the first and great commandment.

And the second is like unto it; Thou shalt love thy neighbor as thyself.

On these two commandments hang all the law and the prophets.—Matthew 22, 35-40.

Concerning Women

When a cat has its back stroked it probably experiences real pleasure. So when a horse has its ears smoothed. Among certain savage islanders there is a system of massage reserved for honored guests, and styled "lomi-lomi." It is made up of gentle stroking and kneading. The essence of such massage is that the subject becomes completely passive, while the operator goes through the movements best calculated to promote restfulness. Mere stroking used in varying degrees of swiftness and pressure, is very soothing to an excited nervous system. The gentler and slower the stroke the more marked is its sedative action. In some way not quite clear it promotes mental peace and nerve rest. Soft fingers, ungloved, are the best implements, and no adjunct of any kind is needed. The stroking may be confined to the forehead, the head or may engage the entire body. A sympathetic mind will communicate itself to the touch. Try this for nervous headache and hysteria.

The old or delft blue on white is so fresh and dainty in decorative linens that it always has a certain vogue with the summer dining table, notwithstanding it was almost done to death several years ago.

Surplice bodices on blouses are numerous among the new lingerie frocks, and are possibly the simplest and most easily developed of the modish ideas. Shirred or plaited at the shoulder and bordered by a narrow Valenciennes frill and inset rows of Valenciennes, or by a band of embroidery insertion, with a narrow Valenciennes frill to edge it, the surplice front is easily achieved, easily laundered and exceedingly pretty.

An embroidery band scalloped on the edges and with Valencienes frill under the scallops of one or both edges is a good surplice finish, and the same effect may be introduced upon the skirt, though often the embroidery is used nowhere save on the front, and the trimming of sleeves and skirts is left to tucking and Valenciennes, as was the case with one of the frocks sketched here.

Other surplice fronts are finished with one of the scallop embroidery appliques, producing somewhat the same effect as heavy hand embroidery on the edges of deep scallops of the material. Similar Swiss embroidery applique, with the scallops much larger, is an excellent finish for skirt flounces, and, as these embroideries usually come in several widths or sizes, it is easy to use the one idea in all the details of the frock.

Colored lawn or linen bordered by such scallops in white is sometimes especially chic, and though not quite so smart as scallops buttonholed by hand on the material the by-the-yard embroidery is less expensive and much less troublesome of achievement.

Frocks in delicate color mull, lawn or batiste, embroidered in openwork design with white are shown in robe patterns—plain material, allover, flouncings and insertions—and when artistically made are particularly dainty, though for the woman a few frocks all white is far preferable. The last word of modishness is the frock of the class, with hat, parasol and coat to match, but such a costume en suite is necessarily expensive.—Cincinnati Enquirer.

Women are coming to the front rank of after-dinner speakers, and Chauncey Depew and the other celebrities in this line are advised to look after their laurels closely. A prominent woman is quoted as saying that if the art of after-dinner speaking continues to be cultivated among women, it is likely that they will prove themselves as clever and eloquent as men who have made reputations in that way. I say they will do better, and for the reason that men usually speak too long. Among individuals who excel in after-dinner speeches are Mrs. Philip Carpenter, president of New York State Federation of Clubs; Mrs. Decker, president of the G. F. W. C., who is a wonderfully magnetic and witty speaker; and Mrs. May Alden Ward and Mrs. Moore, the vice-presidents; Mrs. Denison, of New York, Mrs. Mabel Loomis Todd, Mrs. Donald MacLean and Mrs. Charles Warren Fairbanks wife of the vice-president of the United States, are well up on the list, which contains many other names known to club women.

The girl who is handy with her needle nowadays need not want for useful and interesting work. She may not be a seamstress. She need not know any of the mysteries of cutting out and seam fitting, and yet she may be the busiest girl in the house, doing things that mean far more in the general effect of her summer wardrobe than the most intricate machine work. There never was a time when there was such a rage for hand-made things. All the knowledge that every young girl has about fancy work may be practically applied now to gowns. She may be busily doing stuffed embroidery, long and short and short and cross stitch; even darning on her blouses and gowns and she will be just twice as smart in her summer gowns as her richer cousin, who can hire them all made, but who doesn't know how to embellish them.

The hardest-worked women in England are the chainmakers of Cradley Heath, Staffordshire. These women have been known to work at the anvil for 15 hours and then go home to do the housework and the washing. They get $1 to $1.25 for every hundredweight of chain they make, which usually takes a day and a half.

One of the attractive personalities encountered in Korea is the singing girl. At the social gatherings and festivals of the wealthy she serves the guests and then sings, plays the guitar and recites. These girls, although from the humblest order, are well educated from a Korean point of view and their services are in great demand. They can be hired singly or in numbers, according to the needs of the host, and they enliven many a feast which, except for their presence, would be simply an excuse for gormandizing, most Koreans being gross feeders. As religious and social festivals are occurring constantly in Korea, the pretty singing girls are kept busy, no entertainment being thought worth while without their presence.

Almost every one coming home from Bermuda brings a curate. The curates are all sent to New York in crates, as the curates popular in Bermuda are of the neuter gender. The curate is a set of shelves like a standing work basket. On the lower shelf there are small tea plates; the second shelf holds sweets and little biscuits, while on the top shelf the hostess keeps spoons or cakes. The handle curves over the top, and the curate is carried around when serving tea. In England young curates are considered very useful at teas, always being very willing to wait on the ladies and to add mild gossip to the conversation carried on over the cups. So for this reason the tea basket received its name. The curates may be had in both wicker and mahogany. In Bermuda light wicker is used.

Most women agree with men in regard to their "rights." Mrs. Craigie voiced their view respecting them in a clever and sensible speech last week. They prefer the position that they now hold socially, which is one of superiority to men. As Burke said in his famous passage on Marie Antoinette: "The days of chivalry are gone." What remains of them will disappear after women have found themselves forced into the rough- and-tumble of politics. Marie Antoinette herself was an instance of the unfitness of women to rule. She was perpetually meddling with her husband, she squandered money like water and she encouraged extravagance in others. She rendered all development of sane liberty impossible by intriguing with courtiers against constitutional government, and many of these were her lovers. It was largely due to her that her husband was executed and that all the excesses of the revolution took place.

LEGEND OF THE OSTRICH.

Among the Arabs there is a curious legend to account for the ostrich's residence in the desert. "On a certain day appointed," so the story runs, "all created beings met together to decide upon their respective order and precedence. All went smoothly until the ostrich, pleading its inability to fly, disowned the birds and claimed to take rank with the mammals.

"These, however, would have nothing to say to a creature clothed not with fur, but with feathers, while the birds, when the ostrich went dejectedly back, repudiated it also as a traitor to its race. But the ostrich was equal to the occasion and declared that being neither mammal nor bird it must be an angel.

"At this all the other animals indignantly rushed upon the ostrich and drove it before them into the desert, where it has lived in solitude ever since, with no one to contradict it."

ACCUSED BY HIS FORMER WIFE

FLORENCE RICHARDS SAYS EX-HUSBAND FOLLOWS HER AROUND.

Harry Richards, formerly a Tivoli opera singer, and his divorced wife Florence Richards, once more figure in the courts. This time Richards is accused of dodging the steps of his former wife and disturbing her peace.

I love that will not die, despite the fact that he found cause to divorce her, is said to be at the bottom of the entire affair. Richards says that this is not so and that the reason that he followed his wife in various places was to obtain evidence against her which would prevent her from visiting her children.

Mrs. Richards scornfully says that her husband, after having divorced her, has not respected the decree, but has made her life miserable by dogging her footsteps.

According to Mrs. Richards' friends, the sole object of Richards is to secure the return of the affection of the wife which he lost via the divorce court.

The trial of the divorce suit developed quite a sensation. A complaint and cross-complaint bristling with charges and counter charges were filed and much interest was taken in the progress of the trial which resulted in Richards securing the divorce and being awarded the custody of the children. There was a stipulation in the decree of divorce permitting the mother to visit her children at least once a week.

Mrs. Richards is a music teacher by occupation. She has earned her living by following the vocation. For several months that she has enjoyed single blessedness, Mrs. Richards says that her former husband traced her movements with by far too much faithfulness.

"We are divorced and are no longer man and wife. Why does he not go about his own business and leave me alone?" she asks. "I ask nothing of him and want nothing."

This morning in the Police Court Richards admitted that he had played the sleuth as far as his wife was concerned. His purpose was to obtain evidence against the woman, who formerly shared his home and was the mother of his children to have her declared an unfit person to visit the children. Mrs. Richards says that this is purely spite work.

A daughter of Mrs. Richards, who is living with her father, wrote her mother a latter in which the child reproached her maternal parent. The child stated in the letter that her mother should not have done what she did, meaning the arrest of Richards, while she was about to graduate from the Cole School. The child pathetically stated that the other children would point her out because of the unseemly wrangle between her parents.

Police Judge Smith was not ready this morning to take the case up as there is some doubt as to the ability of Mrs. Richards legally to swear to a complaint against her ex-husband. The law provides that a wife cannot swear to a complaint except in cases involving bodily harm.

"My former husband has threatened to kill me," says Mrs. Richards. "I do not see why I should not have the protection of the court."

HOW THE CANAL WILL BE DUG.

Within limits, we now know just about what will be done. The bottom width of the cut will be 200 feet and the depth 40 feet. The Suez canal, averaging 115 feet wide at the bottom and permitting a draft of only 27 feet 10 inches, has proved too small. Several of the great battleships of the British navy can now go through it only with hazard, and none of the larger freighters fully loaded, such as have proved most economical for the transatlantic trade, could go through. Even the larger German lines trading to the Orient often lose their steerageway and sheer against the sides. The Panama canal will be able to admit even larger vessels. There must be one lock—a tide lock—near Miraflores, and possibly one at Bohio to reduce excavation.—New York World.

Our Bachelor Girls.

As far as appearance goes, the bachelor girl who prevails at the present time would delude the unwary into thinking that she was of the old school. She shuns eccentricities of dress, the unbecoming masculine lines at the one extreme, as carefully as the rouge-pot and high heels at the other. Her clothes are only a little simpler than those of her sister in society. She does not swear or smoke cigars—although she reserves the right to do so if she wishes. Her manners are simple and direct.

The social settlements have been a boon to girls of this class. They form stepping-stones between college and Bohemia. Allied to this sort of interest are other movements, in which bachelor girls of sentiment and education may become twentieth century ministering angels. One of these is the great system of organized charities employing tens of thousands of workers, another the profession of trained nurses, and a third the promoters of economic and municipal reforms.

Literary and artistic bachelor girls—writers, sculptors, illustrations, painters and the like—also hold their devotion to ideals responsible for their manner of living. They are to be found in places as closely resembling those of the Paris Latin quarter as brand-new America can furnish.

Similarly, women doctors, lawyers and architects and all sorts of professionals do their work as their brothers do, asking no favors and planning independent lives in establishments of their own.—London Telegraph.

NOT AN ABSTAINER.

(From the Lowell Citizen.)

Senator Sturgis, author of Maine's drastic legislation for the enforcement of prohibition, blandly admits that he is not a total abstainer. The disclosure is somewhat startling to those who believe that every man should be his own prohibitionist; or, at the very least, that no one not a teetotaller should try to keep others from getting a drink when they want it. There is a certain apparent inconsistency in the statesman's legislative and personal conduct, though it may not appear so to a Maine man. Voluntary total abstinence should be the standard of a professional prohibitionist and then the unregenerate would not scoff. However, Sturgis probably gets his by express, without violating the law.

THE LATEST NEWS OF THE DAY—4:30 P. M.

CIVIL SERVICE UPHELD IN SAN FRANCISCO

Many Employes Will Lose Positions Under Decision of the Court.

SAN FRANCISCO, June 2.—A stunning blow was given several office-holders today when Superior Judge Sloss handed down an opinion to the effect that abolishing positions for the purpose of removing civil service employes in the city government and then creating positions under different titles with the same duties as the old is illegal and an evasion of the law in bad faith.

Judge Sloss has deprived several officials of salary for thirteen months, because they were illegally employed in the places of discharged civil service men. His decision affects the positions of a vast number of present employes in the City Hall, for whom vacancies were created by dismissing civil service employes. Under its plain language the City and County Auditor cannot legally pay salaries to the pets of the grafters without taking the risk of losing the money himself.

MANY EMPLOYES AFFECTED.

On the other hand the decision is a complete victory for civil service.

Already one of the losing employes says there will be an examination for the office which he held, and he will take the examination.

The decision is another victory for the Merchants' Association, for the plaintiff in the action is John E. Quinn, former Civil Service Commissioner, and a former director of the association. His attorney was Franklin K. Lane. He sued Harry Bahr as Auditor of the city and county to restrain him from paying the salaries of Louis Levy, deputy health officer; Dr. C. A. Glover, Dr. C. W. Goodale, Dr. M. J. Walsh and Dr. Hannah, "inspecting physicians" of the Health Department. They got two months' salary for January and February, 1904, and then the suit to stop payment was brought. So Levy lost $150 four months and $175 a month for a year. Drs. Glover, Goodale and Walsh lost $100 a month for thirteen months, and Dr. Hannah for several months, he being a later appointee.

The court says in the opinion:

THE DECISION.

"The plaintiff's contention is that these powers of abolition and creation, while necessarily resting in the discretion of the board, must be exercised in good faith for the public service, and cannot be made a cloak for the purpose of evading a provision of the charter relative to the appointment of persons in the classified civil service list of the city and county. In other words, if the real purpose of the board was to remove certain employes and to replace them with others, this object, which could not be directly accomplished without violating the provisions of the charter, was not capable of fulfillment by the device of abolishing one place and creating another with substantially the same duty and giving it a new title. And this contention is abundantly sustained by authorities.

"Notwithstanding the fact that the deputy health officer, nominally at least, took the places of four or five of the old employes, circumstances surrounding the meeting of the board at which the changes were made go far to demonstrate that the majority of the board was seeking to displace subordinates who were for personal or political reasons not agreeable to them, and to substitute another or others to place them better.

POLITICS CONTROLLED HEALTH BOARD.

"The control of the board had just passed from the adherents of one political party to those of another, and it was evidently thought desirable to give certain places of employment to followers of the dominant faction. As was stated by the president of the board to one of the deposed officials, there was a 'turn of the political wheel.' This turn was the controlling reason for the changes, even though the members of the board may at the same time have felt that they were promoting efficiency and economy in the management of the department.

"The foregoing discussion proceeds upon the ground that the Board of Health had not power to fill places occupied by civil service employes except by means of requisition upon the Board of Civil Service Commissioners for names of eligibles from the classified list. For the determination of this question it is immaterial whether or not the incumbents were properly removed. It is not intended, therefore, in this opinion to decide the question which was quite fully argued whether or not the persons displaced held at the pleasure of the appointing power pursuant to article XX, section 16, of the constitution. Whether they did or not, it was incumbent upon the Board of Health in filling their places to make the appointments in the manner laid down in the civil service article of the charter.

"For the foregoing reasons these preliminary injunctions asked for will issue upon the plaintiff filing an undertaking in the sum of $1,000, and the demurrer will be overruled, with leave to answer within ten days."

EFFECT OF THE DECISION.

There are many positions affected by the decision. Among those who have been placed in the positions of civil servants are laborers—street sweepers, mechanics, timekeepers, storekeepers, hospital attaches, pavers, engineers, janitors, and besides clerks and deputies in various city departments.

PEACE NOT DISCUSSED

Subject Not Referred to By Members of Cabinet.

WASHINGTON, June 2.—At today's Cabinet meeting there was no consideration of the subject of peace in the Far East; in fact it was stated that the subject was not even referred to informally.

Secretary Taft brought up the question of certain army appointments and at the conclusion of the meeting he said he would make public soon his formal orders regarding them.

Secretary Morton announced after the meeting it had been decided that the remains of John Paul Jones, which are to be brought here soon from France, would not lie in state in the several cities which have requested that such an arrangement be made, but would be taken directly to Annapolis, Md., and there placed in the crypt as planned.

It is expected the remains of the naval hero will arrive in the United States about July 4.

UMPIRE'S CASE IN COURT

COURT WILL BE ASKED TO DECIDE A BASEBALL PROBLEM.

BOSTON, June 2.—A bill in equity against President Harry Pulliam and the various umpires of the National League of Baseball Clubs was filed today in the Superior Court by John McGraw, playing manager of the New York League team, in which the latter seeks to have the defendants enjoined from imposing a fine on him for alleged misconduct and preventing him from acting as manager of his team on the field. The court decided to hear the parties to the case next Monday.

EVIDENCE.

Holmes glanced at the lock on the door, and then brushed off a dab of white face powder.

"The old Countess lied like a politician when she said she was not listening at the keyhole," he remarked acidly.—Detroit Tribune.

FIND A FORTUNE

Workmen Discover $300,000 in Securities in Car of Sand.

BEDFORD, Ind., June 2.—Workmen engaged in unloading a carload of sand found hidden in it several bundles of papers which proved to be bonds and securities valued at $300,000. They were identified as the property of the Wilmington, Ill., Bank, which was robbed of the papers and $2,500 in cash on May 9.

"EVERYTHING GOES HYDE'S WAY"

NEW YORK, June 2.—The directors reconvened at 2:30 p. m. M. E. Ingalls and A. J. Cassatt left the meeting at 4:45. Mr. Ingalls said:

"Everything seems to be going Hyde's way."

Henry C. Frick, chairman of the investigating committee, left the directors' meeting soon after Mr. Ingalls and said as he did so:

"I have resigned from the board of directors."

It had been expected that some members of the committee would resign from the board if the committee's report was not adopted by the board.

Mr. Ingalls was quoted as saying that a motion to adopt the report of the Frick committe was defeated by a vote of 24 to 14 and that the 24 votes in opposition included 19 directors who are officials of the Equitable Society.

THE SMART SET.

"My husband and I," recently said a well-known woman, "have nothing whatever in common—but my debts."

"I love the opera," said another; it is so expensive."

Woman was given to man as a companion, and the devil gave the dressmaker.

The division of labor in the marriage of today may be described as—the comforts for the woman, for the man the cares.—London Truth.

WILL SEEK SITES IN SOUTH

Naval Men Start Out on An Important Work.

VALLEJO, Cal., June 2.—Lieutenant-Commander Henry C. Gearing, head of the equipment department at the Mare Island Navy Yard, will leave here this evening for a trip down the southern coast, with a view to determining the best sites for the wireless telegraphy stations which are to be established by the Navy Department.

Lieutenant-Commander Gearing will be accompanied on the expedition by George Hanscome of Vallejo, master electrician of the equipment department. He will go direct from here to San Diego, and will look over the ground at Point Loma, where it is thought that the first of the new stations will be established. The expedition will then start back up the coast, making a careful examination to determine the best site for other stations between San Francisco and San Diego. The expedition will return to Mare Island in about ten days, and will then start North, going as far as Cape Flattery and the Puget Sound Navy Yards. It is expected that the Northern trip will consume about three weeks.

Upon the return of Lieutenant-Commander Gearing from Puget Sound his recommendations in regard to the sites to be selected will be embodied in a report send to Washington, where it is expected that the department will at once take action in the matter. Eight wireless stations in all are to be established along the coast, ranging from Point Loma to Point Flattery, and being located at interval of about 200 miles. The establishing of the new stations is in pursuance of the policy of the Navy Department to greatly extend its wireless system. The benefit to be derived from the stations is almost inestimable, as it will enable the naval and commercial world to have accurate knowledge at all times of the exact location of any vessels cruising up or down the coast.

The work in connection with the wireless apparatus will be more extensive than that already done here in the equipment of the stations at the Farallone Islands and the preparations of the wireless stations at Guam and Honolulu. The work for all the new stations included in the twelfth lighthouse district, which extends from San Diego to Point Mendocino, will be done at Mare Island. The equipment department at this yard has been remarkably successful in wireless work, all the outfits for this coast as well as for the stations in the Philippines having been prepared here.

COOKS MAY GO ON A STRIKE

The cooks and waiters of Oakland may go on a strike tomorrow. The question will be decided at the meeting of the union to-night. The restaurant keepers refuse to sign the new agreement and declare for the open shop.

SYNDICATE OFFICES TO BE MOVED

The offices of the Realty Syndicate which are now located in San Francisco will be moved on July 1 to the Syndicate building on Broadway near Fourteenth street.

HAS ANSWERED LAST CALL

GEORGE DE MARIAS, ENGINEER IN FIRE DEPARTMENT, IS DEAD.

George DeMarias, an engineer in the fire department, died last night at the residence of his brother, 1688 Eighth street. He had been in the constant employ of the city in the capacity of engineer for twenty-nine years, never even having so much as a day off. He was stationed in West Oakland.

For the last two weeks DeMarias has not been well and the end suddenly came last night at 7 o'clock. He was fifty-three years of age and was a native of New York. He was appointed an engineer of the fire department on April 15, 1876. He was a member of Live Oak Lodge, No. 17, of the Knights of Pythias.

The funeral will be held from Pythian Castle Sunday afternoon under the auspices of the lodge. The wife of the deceased preceded his death by several years. He leaves a son and a daughter.

CIRCUS WOMAN DROPS 60 FEET

ITHACA, N. Y., June 2.—Miss Mary Rhoades, with a circus, received serious injuries while doing her aerial act at Cortlandt. By the breaking of a toe strap she shot head first sixty feet through the air into the reserved seats, landing on her head and shoulders.

WHY HE LOST THE BATTLE

Reasons Are Given For the Defeat of Russian Admiral.

TOKIO, June 2.—Noon—The cardinal causes of Rojestvensky's defeat have been the subject of general discussion here. One Japanese expert gives the following analysis:

"First, an imperfect reconnaissance and incomplete, faulty and misleading intelligence. Second, an imperfect battle formation which indicated that Rojestvensky did not expect to meet Togo off Tsushima. Third, the weather, the direction of the wind and sunlight were unfavorable to the Russians, Togo having the sun behind him and firing with the wind, while the Russians had the sunlight in their eyes and fired against the wind. Fourth, the Russians wasted their ammunition and eventually ran short. It is believed that the surrender of Nebogatoff was necessary because his ammunition had been expended. Fifth, the marked inferiority of Russian gunnery."

Some experts criticise Rojestvensky for essaying the Tsushima channel. Others uphold him, saying that his only chance lay in going through that channel. The impression prevails that Rojestvensky was totally unaware of the presence of Togo's entire fleet off Tsushima. Many believe that it was necessary for Togo to take a station at a pivotal point from which it would be possible to intercept the Russians entering either Tsushima, Tsurgaru or Soya channels. Calculations placed this pivotal point on the west coast, near the western entrance of the Tsugaru channel. Togo's real whereabouts were known to many Japanese but the secret was successfully guarded another example of the willingness and ability of the Japanese to preserve military secrets.

Leaving aside the questions of preparedness and superior conditions, the superiority of the personnel fresh from fifteen months successful campaigning under all possible conditions, must be taken into consideration. Many ascribe the victory entirely to the superior marksmanship of the Japanese. Togo realizing that it would probably be necessary to fight in the open sea, gave his crews long training in firing during rough weather with a heavy wind blowing and the ships rolling. When the hostile fleets met, the superiority of the Japanese immediately became evident. The sinking of battleships and armored cruisers by shell fire testifies to the deadly accuracy of the Japanese guns and destroys the theory that it is impossible to sink such ships by shell fire.

The attitude of Japanese naval men toward victory is curious.

Togo's message to the Emperor saying that the victory was the result of the Emperor's superhuman influence strikes the keynote of the navy's attitude. The officers openly say that the marvelous result obtained was impossible by mere human achievement alone.

DENIES DIVORCE TO WOMAN

SAYS CHARGE THAT HUSBAND MADE LOVE TO BOOKKEEPER IS NOT SUSTAINED.

Though the family of John O'Connell is disrupted, Judge Ellsworth today denied Mrs. Margaret O'Connell a divorce from the husband who, she says, has been cruel to her. He, however, allowed her $12 a month for the support of one of the two children the other of which was given to the father. The case was heard some time ago and Judge Ellsworth took the matter under advisement and announced his decision this morning.

O'Connell conducts a coal yeard out on Castro street and the wife accused him of making her work in the yard and calling her mother an old "rip," besides making love to his bookkeeper, Miss Annie Hanish.

Judge Ellsworth held in denying the divorce that the charges made by Mrs. O'Connell had not been sustained and that there were not sufficient grounds upon which to grant the decree.

As wife and husband, however, are living apart and refuse to return to each other each one of them was given a child and the mother given a sufficient allowance for the support of the one given her.

RAILROAD MAN HAS RESIGNED

DENVER, June 2.—General Superintendent W. C. Coughlin, of the Denver and Rio Grande railway, has resigned to become general manager of the Kansas City Southern railway, of which J. A. Edson, former general manager of the Denver and Rio Grande has become president.

MURDER WAS JUST AVOIDED

Policeman Arrived on Scene in the Nick of Time.

SAN FRANCISCO, June 2.—The lives of Manuel Costa and Peter Costella of 678 Filbert street were saved by the timely arrival of Policeman William Cannon at their residence late last night. Joseph Kenn had already fired one shot at each of the men, and at such close range that both were badly powder-burned about the face, and was preparing to get his weapon in action again when the policeman arrived, and after a desperate struggle succeeded in disarming him.

Just what the trouble was about the men involved refused to explain to the officer. The all live in the same house, and all had evidently been quarreling about something, for Kenn was bleeding profusely from an ugly scalp wound, which he claimed had been inflicted by Costella. He stated that the matter was a personal one and they had decided to settle it among themselves in their own way. It was after he had been brutally beaten that Kenn drew his revolver and attempted to murder both the other men.

Kenn was taken to the Central Emergency Hospital to have a scalp wound treated, and was later transferred to the City Prison, where two charges of assault to murder were placed against his name. He refused to prefer charges against the other men, and as Policeman Cannon did not witness the assault upon him, they will probably escape prosecution.

ARSENIC IN FOOD

Plot to Poison Prisoners --Over 100 Are Made Ill.

COLUMBIA, S. C., June 2.—Arsenic has been found in the remnants of a cabbage dinner given to the prisoners in the State Prison, and which made more than 100 of them ill. The men are now out of danger. Suspicion points to one of the convicts.

AGED WOMAN IN INSANE WARD

Mrs. Ellen M. Parsons, a woman sixty years of age, was taken to the Receiving Hospital today and placed in the insane ward. She lives at 1930 Delaware street in West Berkeley, and it is claimed has been acting queerly for some time past.

Mrs. Catherine Ryan, the old lady whose home was burned down recently at Magnolia and Twenty-sixth streets, against whom a charge of insanity had been placed, was liberated this afternoon by Judge W. H. Waste, friends interceding in her behalf and promising to care for her.

SQUEEZE IN WHEAT WAS NOT A "CORNER"

MINNEAPOLIS, Minn., June 2.—A committee of the Minneapolis Chamber of Commerce today, after hearing evidence, decided that the squeeze in May wheat was not a corner and that the three Milwaukee firms that had defaulted in payment, appealing to the anti-corner rule of the chamber, would have to settle at the closing price of $1.27½. The firms have acquiesced.

KAHN'S REMAINS INCINERATED.

The remains of Louis Kahn, the Oakdale banker, have been incinerated at the Oakland Crematory. Kahn died from a pistol wound, which he asserted was accidentally inflicted by himself. Before Kahn's death the affairs of the Oakdale Bank, of which he was the head, were found in a tangled condition.

REFUSED CLOSING ADDRESS

Judge Bars Remarks of Prosecutor in Redstock Case.

SAN FRANCISCO, June 2.—After listening to authorities offered both by the prosecution and the defense, Judge Lawlor decided not to permit District Attorney Byington to make a closing address to the jury in the case of Joseph Redstock, the indicted election official.

At the close of Prosecutor Hosmer's argument to the jury last Friday Attorney O'Grady of the defense surprised the prosecution by arising and stating that the defense would submit the case without argument. It has been the customary rule in the courts for years that where the defense failed to offer an argument the prosecution should rest upon its opening statement; so District Attorney Byington did not attempt to address the jury at that time.

Postponements were taken, and yesterday, when the jury was called to be charged, Byington asked to be permitted to deliver a concluding argument. Although the customary practice had been to the contrary, he said, he was entitled, under the law, to argue the case despite the waiver of the defense.

Attorneys O'Grady and Newburgh offered a great deal of objection to Byington's request, and the court being uncertain, directed counsel to present authorities at 10 o'clock this morning. This was done, and Judge Lawlor finally denied the request of the District Attorney. Thereafter the court proceeded to deliver the charge to the jury, and this afternoon the case was placed in the hands of the twelve men who will render the verdict.

POLICE LOOK FOR A GREEK

STOCKTON, June 2.—The police are looking for a Greek named Tom Papadakos, who stabbed his partner in the oyster house business shortly before noon today with a knife used in opening oysters. Nick Constandenedis, the partner, suggested that the books of the place be gone over, another month just starting, when Papadakos suddenly snatched up the oyster knife and plunged it into his partner's breast. He then made his escape.

Papadakos has a bad record. He got into trouble here over a year ago in an oyster house row and disappeared for a time, leaving his wife and children destitute. Other Greeks say he had to leave the old country on account of serious trouble. The wounded man may recover.

MAY NOW OUST TRACTION CO.

MUNICIPAL OWNERSHIP OF STREET RAILWAYS AWAITS DECISION.

CHICAGO, June 2.—Municipal ownership of street railways here is now awaiting action by the Supreme Court of the United States upon the validity of the so-called 99 year act which it has been asserted would give the street railway companies control for nearly half a century yet.

Judge Grosscup today refused to continue in force the temporary injunctions to prevent Mayor Dunne and the city council from proceeding with municipalization pending a decision from the United States Supreme Court.

Judge Grosscup's refusal leaves the city administration free to give notice to oust the traction companies from streets on which it is claimed franchises have expired.

UNITED STATES WILL BE SATISFIED

ST. PETERSBURG, June 2.—It is now certain that the United States will be satisfied with the written decision of the Russian Superior Admiralty Court in the appeal of the case of the captured British steamer Calchas, regarding the cotton which formed part of her cargo, as the general principle that cotton is absolute contraband will not be affirmed. However, the possibility of an acute issue being raised upon the principle disappeared with the destruction of the Russian fleet.

EMPEROR WILLIAM'S MESSAGE TO KING

BERLIN, June 2.—Emperor William telegraphed to King Alfonso immediately after he heard of the attempt on the King's life in Paris Wednesday night and congratulated him on his escape. The Emperor also telegraphed to the Queen's mother expressing his sympathy.

E. J. EARL DEAD.

STOCKTON, June 2.—Edward J. Earl, an old resident of Stockton, and a veteran of the civil war, having served with honor in Company E, Fifteenth Kentucky Volunteer Infantry, died here this morning. He was a member of the G. A. R. He leaves a widow and four sons.

FIRE IS UNDER CONTROL

The Avenue Theater Has Been Totally Destroyed By Fames.

PITTSBURG, June 2.—The fire broke out a few minutes before 4 o'clock, and at 4:20 p. m. the Avenue Theater and Grand Opera House were both in flames. It is a fierce fire and it is not believed that either building can be saved. The fire started on the fourth floor and was caused by crossed wires.

Across from the burning buildings is located the office of the Associated Press and the ledges of the windows are already smoking. The heat is intense and it may be necessary to leave. The Avenue Theater and Grand Opera House are located on the south side of Fifth avenue, between Smithfield and Wood streets. Soon after the alarms were turned in thousands of people congregated in the fire zone.

At 5 p. m. the fire was under control. The Avenue Theater was completely destroyed. The outer walls of the Grand Opera House were damaged, but the auditorium suffered only from water.

RENEWAL OF THE RIOTING

LODZ, Russian Poland, June 2.—There was a renewal of rioting here this morning. A crowd of people stoned a detachment of Cossacks and the latter fired, killing two persons and wounding others.

AGED WOMAN DIES.

Mrs. Ann Brinckerhoff, a native of Illinois, aged 68 years died yesterday at her home, 203 Walsworth avenue. She had resided in this city for about a year. The remains will be forwarded to Dixon for interment. She was the mother of Mrs. James P. Martin, Mrs. Robert Harkinson and Mrs. Ida Trafton of this city.

REV. CHAS. R. BROWN TELLS OF MISSIONARIES.

Pastor of First Congregational Church Delivers An Address At Springfield.

SPRINGFIELD, Mass., June 2.—Rev. Charles R. Brown of Oakland, Cal., made the closing address today before the seventy-ninth annual meeting of the Congregational Home Missionary Society now in session here. He spoks as follows:

"'The Church in the West' was the theme of the Rev. Charles R. Brown, D. D. of Oakland, Cal. In substance, he said:

"In the present moral confusion, in the face of the complexity of modern ethical problems, and with the moral obtuseness consequent upon the inordinate attention to material values in opening up a new region, the church in the West feels great need of moral insight. We want churches which have the power to see clearly and to say bravely, 'This is the way; walk in it!'

MORAL ENERGY.

"In the face of the moral feebleness which surrenders easily to the dissipation of new regions and to the greed which carried many a man there in the first place, there is imperative demand for moral energy. We want churches strong enough and brave enough to stand up without flinching in the face of all the Baal worship and all the attempts to rob Naboth of his vineyard, urging those ideals which are made mandatory by the teaching of Christ.

"And in the presence of the moral failure and wreckage, sometimes pushed out of the older East and sent West and on West until it halts at the shore of the wide Pacific, we want churches which have a vital grasp of that gospel of moral remedy offered to us in Jesus Christ, the Savior of man. We need them all and I do not know how we are to have them on the prairies and in the mountains, in the mining camps and among the great forests, unless there are home missionaries coming out in unbroken procession to lead people up into the mount where they shall see the truth and the strength and the glory of human life in the faces of Moses and of Elijah and of Christ Himself.

CAME MANY MILES.

"I have come 3200 miles to attend this meeting, and for at least 2000 miles of the way nine-tenths of all the church life I passed was aided at its beginning by home missionary money. And in all that wide area—a region which makes the country Moses dreamed of, stretching from Lebanon to the wilderness, from Jordan to the Great Sea, seem like a tennis court—in all that wide region there are no churches which are showing a higher average of moral insight and moral energy, which are declaring more plainly and winsomely the Gospel of moral remedy than those churches founded by the Puritans!

"Essential Puritanism, which is no mere jumble of odd customs, curious laws and narrow-minded theology, but rather the manly and godly habit of putting that first which is first—essential Puritanism can be made to grow, and has been made to grow, on the prairies and in the Sierras and beyond. It has raised up a set of English-speaking men and women who, like Cromwell's Ironsides, 'fear God and have some conscience about what they do!' And when we have a goodly number of them scattered through that land, there is no amount of vice and crime, no amount of political corruption or irresponsible greed which will be able to stand before them.

THE MISSIONS.

"There was something splendid about the coming of the Protestant missionary into my own State of California. The Spanish missionaries representing the Latin Church followed in the wake of the conquest by Cortez; they crossed in early time to Mexico and then up along the coast into California, planting their preaching stations in all the valleys. San Diego and San Gabriel, Santa Barbara and San Luis Obispo, San Jose and San Francisco—the very names of these places are enduring monuments to the efforts of those early Spanish missionaries! The ruins of their mission buildings give a distinctive style of architecture to our State, and they reach as far north as Sonoma county.

THE RUSSIANS.

"And in those early days another world power, Russia, sent its missionaries representing the Greek Church. They came from the frozen regions of the North, crossing at Behring strait. They planted the standards of their faith in Alaska and on down the coast as far as Fort Ross, Cal., which is also in Sonoma county, where the ruins of an old Greek Church can be seen to this day. And even as the 'Sans and Santas' of Southern California testify to the presence of missionaries of the Latin Church, even as the names of 'Alhambra' and 'Alviso,' 'Alameda' and 'Alvarado,' point still further back to the days when the Moors crossed into Spain, bringing the Arabic 'Al' with them to be carried in turn by missionaries to the New World, so the names in Sonoma county, 'Russian River,' 'Sebastopol' and 'St. Helena' speak to this day of the presence of Russian missionaries from the Greek Church.

"But into the religious life of that great state God meant that Saxon ideals and Puritan principles should also enter. Across the plains and around the Horn, there came a company of devoted men and women to build churches and found schools, to thus declare a purer Gospel to the life of that rapidly growing commonwealth. And in all the walks of life today thoughtful men are rising up in recognition of the work of Whitman and Benton, of Willey and Dwinelle, of Moear and McLean, calling them and those who made it possible for them to come blessed indeed. They brought, in far more generous measure than did the Spanish and Russian missionaries, moral insight, moral energy and moral remedy.

OUR MORAL LIFE.

"The investment of money in home missionary work is one which yields royal returns. Cast thy bread upon the mountains and the prairies of the West and you will find it after many days. Our own California is a new State. The Old South Church of Boston and this splendid church where we are meeting, had both celebrated their 200th anniversaries years before there was a single Protestant church in California. But already California has grown in Christian interests until it stands fifth among the States of the Union in Congregational benevolence—Massachusetts and Connecticut, New York and Illinois alone surpassing her gifts to our societies. The largest Congregational church in the United States in point of membership, outside of Brooklyn, New York, is in Oakland, California. The climate and the soil are friendly and responsive to the approach of men along the lines of physical effort, and there is a corresponding spiritual responsiveness to those men who bring genuine insight, energy and remedy to our moral life.

HOME WORK.

"Our home missionary work is no bit of incidental benevolence tacked on to our regular religious work. It is really our answer to God's summons to the Nation to go forward by faith in Him led by the ark of the covenant, the outward symbol of our agreement with His divine purpose, trusting in the powerful aid of that Ally who fights steadily on the side of those who make His plans their own. Our home missionary work is our answer to the question, whether we shall suffer ourselves to be driven back from the land of promise, the land of spiritual growth and unselfishness, or whether we, too, shall be a messianic Nation—whether we shall take and hold this land which flows with milk and honey for those Christian ideals which the Holy Spirit has graven on the tables of our hearts. The great issue before us is that and nothing less than that!

THE BATTLE.

"When we by our gifts and our prayers, by our service and our self-sacrifice fight the battle of Christ on the Western coast of our own country, seeking to make that region profoundly and strongly Christian, we are fighting the battle for whole generations yet to be born to the West of us. If those awakening countries across the Pacific both Mongolian and Slav, shall find our civilization which fronts upon their life really and truly Christian, because dominated by the spirit of the San of God, it will hasten their redemption a hundred fold. Send out them through all the length and breath of our land and especially to those states upon the world's firing line, men of moral insight and men of moral energy, who bear with them the gospel of moral remedy; and as a result of their work the glory of God will be seen shining in the faces of an innumerable company of Christian disciples."

RUMORED CHANGES IN SOUTHERN PACIFIC

SAN FRANCISCO, June 2.—The vacancy in the office of manager of the department of purchases and supplies, caused by the death of Richard Stevenson, will probably not be filled until next week. Stevenson's successor will be appointed by Vice-President and General Manager E. E. Calvin, and Mr. Calvin left for the southern part of the State on an inspection trip yesterday morning without taking any action in the matter. It is understood that no appointment will be made until he returns.

At the same time is is quite generally understood that the important position of head of the purchases and supplies department will be conferred upon H. W. Ellicott. Ellicott is now the acting head of the department and is in line for promotion to the vacancy. He is a brother-in-law of R. P. Schwerin, who managed the department of purchases and supplies for many years. When Schwerin presided over the department Ellicott was lumber inspector and fuel agent, and when Stevenson succeeded Schwerin, Ellicott succeeded Stevenson as assistant manager of the department. R. L. France, lumber inspector and fuel agent, probably will succeed Ellicott as assistant manager of the department, should Ellicott be given the expected promotion.

WERE ENTICED INTO A TRAP

LONDON, June 2.—The Mojl, Japan, correspondent of the Daily Telegraph gives a story told by Captain Rojinoff, commander of the Russian cruiser Admiral Nakhimoff. The captain says:

"We chose the shortest route to Vladivostok, passing a certain strait. We were unhappily enticed by the Japanese fleet and were completely surrounded.

"Our position was hopeless from the beginning of the battle. We had fallen into a bitter trap. It was cruel, moreover, for the Japanese selected the engine-room of my ship as a target. A torpedo went straight through my vessel and we lost our fighting power and were unable to move either way.

"We launched the boats and embarked 600 of the crew, who were rescued by the Japanese. I, with the navigating officer, determined to share the fate of our ship, which sank. We two were drawn underneath by the suction, whirled about and lost our breath.

"We forgot everything, but fortunately were picked up by the Japanese fishermen. We had intended to die and floated about in the water, as it seemed, for hours, watching the havoc created by the explosion of Japanese shells."

THREE WARSHIPS ARE SIGHTED

MANILA, June 2.—Three warships were sighted at 2 o'clock and three more at 3 o'clock this afternoon, steaming slowly, and headed for the Gulf of Lingayen.

The ships are of different types and are painted a lead color.

The Gulf of Lingayon is on the west coast of the island of Luzon and about seventy-five miles north of Manila bay.

WEALTHY MAN IS MISSING

LAST SEEN WALKING ON A PIER IN ENGLAND WITH CHORUS GIRL.

NEW YORK, June 2.—Details have just been received here of the mysterious disappearance recently in Brighton, Eng., of Mulford Martin, a wealthy young American.

The young man's mother, whose home was in Rye, N. Y., married some time ago Dr. Walsh of San Francisco. Wishing to supervise her son's education, Mrs. Walsh accompanied him to Europe in the early part of last March. After visiting France, England and Ireland, young Martin and his mother arrived at Brighton on April 28th and took a suite of rooms at an exclusive hotel.

Martin made friends among the chorus girls of a vaudeville pavilion and early in May walked out on a pier with one of them. The girl returned to the pavilion for a short time, Martin having promised to await her on the pier. That was the last seen of him.

Scotland Yard detectives have been working on the case continuously but so far have obtained no clue. A story told by an amateur trance medium to the effect that she had seen in a seance a man answering Martin's description, bound and held as a prisoner in a strange house has even led to a minute search for the place described. Thus far, however, no such house has been located and a general alarm has been sent out in Paris *and* through all the English cities. The missing man's guardian, who lives in New York, has received no drafts or requests for funds since April 30th.

Young Martin was to have come into possession of his fortune next November.

SAW DESTROYERS IN A BATTLE

ST. PETERSBURG, June 2.—Lieutenant General Linevitch has transmitted a report from General Easbek of the arrival of the torpedo-boat destroyer Grozny at Vladivostok and telling of a fight off Dagelet island, which that vessel and the destroyer Bedovi had with two Japanese destroyers. The Grozny sank one of the Japanese destroyers and saw the Bedovi sink as the result of an explosion. The report says that the Bedovi was carrying Vice Admiral Rojestvensky and his staff.

$1—No Higher—$1.

Make no mistake when seeking the advice of a clairvoyant; it pays to consult the best. As a seer and interpreter of things hidden to man, Prof. Delmar has no equal. Hundreds of others have been put on the road to fortune by him. Why not you? Many profess the gift of clairvoyancy and necromancy; few, indeed, are so gifted. One visit to a genuine occult scientist will repay you for many disappointments.

I, Alexander Delmar, do hereby agree and guarantee to make you no charge if I fail to call your name in full, names of your friends, enemies and rivals. I promise to tell you whether your husband, wife or sweetheart is true or false; how to gain the love of the one you most desire, or control or influence the actions of anyone, even though miles away; in fact, tell you every hope, fear or ambition of your life better than you can tell yourself without telling me one word, and if you are not absolutely satisfied when reading is over (you to be the judge) then pay me not a penny.

Professor Delmar is no stranger in San Francisco, but is well known to many, having demonstrated his marvelous powers here and in Oakland for several years. His old patrons are his warmest friends and it is common for callers to say: You were recommended to me by a friend who called on you several years ago.

There is a power so subtle, yet so strong, that when employed by a master people are influenced without their knowledge into doing the wishes of others; bad habits are cured, estranged lovers are reconciled, happy marriages are brought about. It reunites the separated husband and wife, troubles are averted, enemies are overcome, success and advancement is secured; many things are accomplished by it for the good of those suffering in mind and body.

By this secret power, Prof. Delmar has in the past wrought wonders in results for his patrons. His record of success is marvelous.

The secret of power and personal influence, how to win in business, love, law, health and all affairs made clear to you.

DIPLOMAS FOR GRADUATES.

ENTERTAINMENT IN LAUREL GROVE GRAMMAR SCHOOL TOMORROW.

HAYWARDS, June 2.—Preparations are about complete for the entertainment to be given at the Laurel Grove Grammar School next Friday afternoon at the graduation exercises. There is to be an interesting program of literary and musical numbers following an address by Principal Petray.

The children in several of the grades have been practicing diligently for some very pretty drills and "rythmic plays." The pupils in the graduating class will close the entertainment by singing "Ave Maria."

G. S. Langan, president of the Board of School Trustees, will give the diplomas to the graduates. P. J. Crosby will give an address.

Following is the program as it is to be rendered:

Introductory remarks, Principal Petray; chorus—"American Hymn," sixth year grade; recitation, Trello Chisholm; physical culture drill, sixth and seventh grades; select reading, Lydia Long; triple trio—"Peacefully Sleep," seventh year grade; recitation—"Jamie Butler, the Weaver," Elbert Thurman; parasol drill, fourth and fifth grades; instrumental selection, "My Own United States," James Hanson, Bacci Ravona; recitation—"King Volmer and Elsie," Hazel Hellar; address, Peter J. Crosby; violin duet—"Hearts and Flowers," Edwin Kelsey, Nellie Buck; rythmic play, first and second grades, presentation of diplomas, G. S. Langan; class song—"Ave Maria," graduates.

FUNERAL TODAY.

The funeral of Mrs. Agnes Counsello, who committed suicide by taking strychnine Wednesday, was solemnized this morning at the Haywards Catholic Church. The unfortunate woman was a Portuguese, and as the family name means "Brown" in English, she was known as Mrs. Brown. She took the poison in a fit of passion after a quarrel with her daughter.

There was a large attendance at the solemn service this morning, which was under the auspices of the S. P. R. S. I., of the San Lorenzo branch, of which she was a member. Father O'Mahoney of San Leandro officiated at the funeral, as the family resided in his parish. Interment was at the Catholic cemetery here.

Mrs. Counsello was fifty-one years of age and had lived in Ashland for a number of years previous to her death. She was born in Fayal.

BATTLE FOR MILLIONS.

PHILADELPHIA, June 2.—The Orphans' Court has granted the petition of Charles D'Invilliers, attorney and guardian of Young Martha Rodgers Wrightham asking that the action of the register of wills in admitting to probate the last testament of the late William Wrightman be set aside. The court ordered that the will and its accompanying petition be taken from the register of wills and brought to the Orphans' Court for consideration. This was done, and the battle for millions is now on. By filing the petition in the Orphans' Court Mr. D'Invilliers started the long-heralded contest for an apportionment of the wealth of the chemist. Under the will Mr. Wrightman's daughter, Mrs. Anne M. Wrightman-Walker, was made the sole heir to his fortune estimated at $60,000,000. The fight for a distribution of the estate among the grandchildren was precipitated by Mrs. Jones Wister, mother of Martha Rodgers Wrightman, the only minor grandchild of the late Mr. Wrightman.

SARGEANT COMING HERE.

WASHINGTON, June 2.—Frank P. Sargeant, Commissioner-General of Immigration, has left Washington for San Francisco, whence on the 7th inst., he will sail for Honolulu to inspect the new immigration station there and to organize the force at the station. On his return to the United States he will remain for a time at San Francisco on business in connection with the station there. He expects to return to Washington about the middle of July.

ULCERS FOR 30 YEARS

Painful Eruptions from Knees to Feet Seemed Incurable.

CUTICURA ENDS MISERY

Another of those remarkable cures by Cuticura, after doctors and all else had failed, is testified to by Mr. M. C. Moss of Gainesville, Texas, in the following letter: "For over thirty years I suffered from painful ulcers and an eruption from my knees to feet, and could find neither doctors nor medicine to help me, until I used Cuticura Soap, Ointment, and Pills, which cured me in six months. They helped me the very first time I used them, and I am glad to write this so that others suffering as I did may be saved from misery."

Rising Note of Russian Discontent.

Since the destruction of Rojestvensky's fleet the Russian press has struck a bolder note than it ever dared to do before. The bureaucracy of Russia is blamed for the recent disasters, and there is no mincing of words in describing the causes of the complete breakdown of the Russian military system. The demand for peace is equally outspoken.

The Russ, one of the foremost of St. Petersburg's journals, says: "Those guilty of Russia's disgrace should be overwhelmed with shame." This strikes very close to the Czar's palace. The Slovo says "The bureaucracy has had its say and has crowned its work of national shame and humiliation." Going further the Slovo says: "From this moment a convocation of the people has become necessary." Warning is given the bureaucracy not to stand between the Czar and the people. In reality this warning is directed at the Czar, who is being lectured over the shoulders of his subordinates.

This menacing tone is significant of the change which has recently come over the Russian populace. The news that whole battalions of Linevitch's troops are in almost open revolt is equally significant. Thousands of Rojestvensky's sailors paraded in Crete shouting "Down with the Government." They expressed in plain terms what the newspapers only hint at. In this multitude of evidences that the Russian people are fighting this war against their will, one can discern the mutterings of the storm which is soon to break if conditions are not speedily improved throughout the empire. The press and the people are giving tongue to their thoughts in a way that is ominous for the existing system. When thought and speech refuse to be stifled, the end of absolutsm approaches.

But the weakling Romanoff, with his prayers, tears and kissing of saints' bones, seems unable to grasp the situation or to understand the meaning of the popular discontent. His Cossacks are still flogging students and citizens for assembling in the streets, and his secret police continue to consign victims to the mines of Siberia, oblivious of the fact that the murmur of the people is rising louder and louder, and threatens to break out in a tempest. Each fresh disaster makes the populace bolder and more outspoken in condemning the criminal folly of the government. So, in a way, Japan's cannon are making an opening for liberty in Russia.

No doubt the Czar will be delighted to learn that Rojestvensky will recover.

If the Indiana schoolmaster who promulgated the theory "of the more lickin' the more la'rnin'" were alive today he would probably think the Russians have learned an awful lot during the last fourteen months.

The memory of the late Stephen M. White is soon to be perpetuated by the erection of a statue in Los Angeles. A fund of nearly $20,000 has been raised and the committee will be in readiness to begin operations as soon as the site question is settled. Senator White was the first native born Californian to be elected to the United States Senate, and the eminence he achieved in that body entitles him to a high place in the esteem of the people of this State. He was deservedly one of the most popular men who ever figured in the politics of California.

Doubtless the Russian monarch will appreciate the courtesy of the Japanese in allowing Rear-Admiral Nebogatoff to make an official report of the terrible licking he received.

In a recent magazine article, Colonel Gorgas, head of the medical and sanitary staff of the Canal Commission, says the death rate among the canal employes on the isthmus was 14.60 per 1000 last year. This is a lower death rate than prevails in many leading American cities. If the figures of Colonel Gorgas are correct, the climate of the isthmus is far from being as deadly as has been pictured. What he says is a flat contradiction of the statements recently made by ex-Minister John Barnett, who alleged that yellow fever was becoming epidemic at Panama. Colonel Gorgas says yellow fever has practically ceased to exist down there.

A Chattanooga Judge has fined a young man $20 for snoring in church, which he declared was a breach of the peace. It would be interesting to know what penalty that Judge would visit for snoring in the pulpit. A good dealing of the snoring in the pews is responsive to snoring in the pulpit, for the stentorous, vacuous droning so often heard there is indicative of nothing but mental drowsiness.

President Jordan and Dr. Goebel.

No one can read the different versions of the story of Dr. Julius Goebel's summary dismissal from Stanford University without being impressed with the fact that there are two sides to the case. In fact, the stories themselves do not vary so much as the points of view.

President Jordan is reported as saying that Dr. Goebel was dismissed because of incompetency. Dr. Goebel was the head of the department of languages of the university for thirteen years, and was highly esteemed by Mrs. Stanford, who sought his advice privately in matters concerning the university. This perhaps in a large degree accounts for the after friction between Dr. Goebel and President Jordan. The latter is very sensitive in regard to his authority and was inclined to be jealous of Mrs. Stanford's favor.

In this instance President Jordan has unfortunately placed himself open to the charge of duplicity and subterfuge. That was the charge brought against him in the Ross case. Behind it lurks the accusation of executive despotism and the suppression of academic freedom. At Mrs. Stanford's request Dr. Goebel made a report to her concerning the affairs and management of the university. The propriety of this proceeding is open to decided question. Its unwisdom is apparent. The tenor of that report appears to have been displeasing to President Jordan, which was natural and perhaps inevitable. Some of the professors and instructors whose work and personal habits were discussed, if not criticized, by Dr. Gobel felt aggrieved. Other professors and instructors agreed with the professor of languages, and a sort of partisanship in the teaching force of the university resulted.

Personal ill-feeling between President Jordan and Dr. Goebel arose, the latter accusing the former of making verbal charges respecting his character and qualifications which he would not put in writing or formally bring before the trustees. Such a condition could not endure. It was bound to force the retirement of either the President or the professor of languages. That it would not be the former can readily be imagined. Whatever faults may be laid at David Starr Jordan's door, it cannot be denied that he has proved himself to be a great educator and a successful college administrator. His work at Stanford has been of the highest order, and the high place Stanford has taken among institutions of higher learning is largely due to his talents, his executive skill and his grasp of the problems he had to solve.

But it is a pity so gifted a man, to whom the cause of education owes so much, cannot be more straightforward and magnanimous in dealing with subordinates who displease him. Dr. Goebel had been with the university for thirteen years when he applied for his sabbatical vacation. He asked for no special privilege or favor, but only preferred a formal request for something that was his right according to established custom. This request had to be preferred through President Jordan, who does not appear to have treated it fairly. He wrote a note to Dr. Goebel saying he would lay the request before the trustees with a favorable recommendation provided Dr. Goebel would present his resignation to take effect at the end of the year's vacation. Here was a palpable attempt to force Dr. Goebel out of the university under pretense of doing him a favor. It was in plain words an attempt to kick a man and at the same time give out the impression that he had been let down easy. Such furtive diplomacy is not to be admired. However plausible the explanations offered for it may be, the impression of malice and insincerity cannot be dissipated.

Dr. Goebel did not have an absolute right to his sabbatical vacation, he, at least, had a right to have his application presented without condition and considered on its merits. If he is incompetent, as President Jordan alleges, why was he retained so long at the head of the department of languages? And why did not President Jordan demand his resignation instead of paltering and jockeying with the request for sabbatical leave? Apparently President Jordan seized the opportunity the request presented to present an alternative to Dr. Goebel that would humiliate him and force him from the university which ever horn of it he chose. The trait of character thus disclosed is not a pleasant one.

A few weeks ago the President commended to the American people the special contribution made by the German contingent of our population to the social spirit and custom of the land. Since the English speech has no single word for the thing he meant, he advised that we adopt into our language its German name, Gemuetlichkeit. Californians unacquainted with the niceties of the German vocabulary are wondering whether the little amenities in the departments of German in their two universities are among the things covered by the untranslatable term.

Lord Roseberry's colors have again been carried to victory at the Derby, but there is small prospect that his lordship will be premier of England a second time.

The opening of the Portland Exposition recalls the story of a century's progress on the Pacific Coast. Just a hundred years ago Captains Lewis and Clark wintered on the Columbia river, near where Portland now stands, after one of the most remarkable exploration marches in the history of the world. Thirteen years before the American ship Columbia entered the mouth of the Columbia river and thus gave the United States a tentative claim to the region vaguely described as the Oregon country, but this country set up no actual claim till after the purchase of the Louisiana Territory from France. Lewis and Clark were dispatched to explore the country and take possession of the mouth of the Columbia in the name of the United States. In all probability their expedition saved the region from falling into the hands of the British.

THE LONGEST LAW SUIT.

Spain boasts probably the longest lawsuit in the world's history. It began in 1517 and is still sub judice. The case, which concerns a pension, is between the Marquis de Viana and the Court Torres de Cabrera and the accumulated sum in dispute would have reached fabulous millions had not four centuries of attorneys, barristers, and court officials taken considerate measures of appropriation to prevent the sum becoming unwieldy.

MONEY IN FRANCE.

Money is more evenly distributed in France than in any other civilized country. According to the taxation returns fewer than 20,000 persons have property valued at $200,000. Of these only 6,000 have fortunes exceeding $350,000, while not more than 100 have $2,000,000 or over and there are just ten fortunate persons who have more than $25,000,000.

CONSPICUOUS IN A BALLROOM.

Flakes of Dandruff on the Collar and Shoulders of a Gentleman in Full Dress.

This is the thing you quite frequently see in the ball-room—a man's black dress-coat literally covered with dandruff.

It must be annoying to the wearer, and certainly not a pleasant thing to observe. But dandruff can be eradicated. It is a germ disease that will some day cause baldnes.

Newbro's Herpicide kills the hair-destroying germ, and stimulates the hair to a rich, abundant growth; it does more—keeps the hair soft and pliant.

Furthermore, Herpicide is a most pleasing toilet accessory; of pleasing odor, and cooling to the scalp.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Company, Detroit, Michigan. Bowman & Company special agents.

CARMEN ENJOY OUTING

BASEBALL GAME, RACES AND DANCING MAKE PICNIC A SUCCESS.

The second annual outing and picnic given by Division No. 192, Amalgamated Association of Street and Electric Railway Employes of America, took place at Idora Park yesterday. Games, dancing and outdoor sports were indulged in.

A baseball game between the men of the eastern and western divisions of the Oakland Traction Company's system was the feature of the day, being won by the men of the eastern division by a score of 9 to 2. The following was the line-up of the teams:

Western Division—First base, Harry McAtee, second base, E. Hutchinson; third base, A. Garbel; shortstop, Clayton left-field, J Perry; right-field, Riley; center-field, E C Straub (captain); catcher, J. Quinn, pitchers, B. Veal and B Hughes

Eastern Division—First base, G. Williams (captain), second base, E. Montgomery, third base, Charles Pierce; shortstop, Joe Blaker; left-field, Charles Kluefer; right-field, O. Gustafson; centerfield, B. Triplet; catcher, G. D. Mainland; pitcher, T. Davies.

Every number on the program filled the floor of the big pavilion, and it was well after midnight when the band struck up "Home Sweet Home." No accidents happened during the day to mar the pleasure of those who attended. During the evening several delegations of San Francisco carmen crossed the bay and swelled the throng at the park.

The following are the names of those who were on the picnic committee: Charles A. Pearce, George Williams, J. W. Jones, J. F. Anderson and W. H. Ellison A. Swanson was marshal of the day and George Williams acted as floor manager in the dancing pavilion.

Those who won the races were: Free-for-all race for men, J. M. Snell; free-for-all race for women, Miss Christie Foote; free-for-all carmen's race, James Dempsey; race for married carmen, F. L. Jackson; race for single carmen, J. Perry; fat men's race, J Lovejoy; fat women's race, Miss Florence Clare.

RICH MAN HAS PASSED AWAY

SOUTHBORO, Mass., June 2.—J. Montgomery Sears, the heaviest taxpayer of Boston and one of the wealthiest men in New England, died at his summer home here today of diabetes.

Mr. Sears was born at Yarmouth, Mass., in 1854, his father having been an East India merchant who accumulated a great fortune. Mr. Sears was well known as a philanthropist.

GIRL AGAIN ARRESTED.

Josephine Perry, a wayward girl, was before Police Judge Samuels this morning for the fifth time on a charge of vagrancy. The young woman has been allowed to go in all former occasions by promising to mend her ways. Judge Samuels was undecided what to do this morning, but intimated that he would give the girl another chance. He wished to send her to the country where the pitfalls of the city would not entice the erring girl from the straight path.

THEIR TESTIMONY CONFLICTS

SUIT OVER DEED TO LAND IN HANDS FOR JUDGE FOR DECISION.

The suit of Edward McDonell to enforce a deed given him by his uncle, P. A. McDonell to twenty-one acres of land on Bay Farm Island and valued at about $18,000 was submitted this morning to Judge W. H. Waste for decision in a mass of conflicting testimony through which he must pick his way as best he can. Representing "Uncle" McDonell, as he is called, in resisting the action were Attorneys A. F. St. Sure and George W. Reed, while Judge R. B. Tappan brought the action for the young man.

The testimony in the case goes to show that in December, 1903, "Uncle" McDonell was very ill and that he was told by a doctor that he had a short time to live and that in the afternoon of the same day Edward McDonell, the nephew brought to the house Attorney M. W. Simpson who had with him a gift deed made out transferring the property in question from the old man to his nephew, and that the old man signed it and that Simpson afterwards put it in his pocket and went off with it.

Some time afterwards the deed was taken by Ed McDonell to Judge Tappan, and the young man wanted Tappan to negotiate a loan on the property for him stating that the land belonged to him. Tappan said that he took the deed and let McDonell have $500 on the property and for a long time had the deed in his safe in Alameda. Nearly a year after the deed had been made out, old man McDonell with his nephew Jim went to the office of Judge Tappan with the deed and asked him to divide the property among a number of nephews and nieces and at their request he destroyed the deed.

Up to this point there is little or no dispute as to the facts, but "Uncle" McDonell was put on the stand this morning and stated that when he signed the paper Attorney Simpson brought to him to sign he did not know that it was and supposed that it was a will, as he says that he had often spoken with his nephew about how he wanted the property divided. Attorney Simpson states that he told McDonell what the paper was and asked him if he knew what he was doing. McDonell says that he was not in the house more than five minutes and that all that was said to him was to tell him where to sign his name.

When Attorney Simpson was put on the stand he stated that he had acted as attorney fo the family on several occasions and that on this day Ed McDonell had come to him and told him that his uncles was to give him the ranch. He left an old deed to the place for him to copy a description of the property out of and after the work had been done they both went over to Bay Farm Island and the old man signed it. The deed was never recorded and was finally destroyed by Judge Tappan.

Tappan himself took the stand this morning in behalf of Ed McDonell, whom he represents, and stated that he has also done work for "Uncle" Mc." and he testified that one day while he was considering loaning young McDonell the $500 on the deed left with him that he met the old man on the street and asked him about the deed and that the old man then told him that he had given the property to Edward. In contradiction of this the old man says that he has no recollection of any such conversation.

As the case is submitted to Judge Waste there is a direct charge against Edward McDonell of endeavoring to defraud his old uncle and other brothers out of a valuable estate while in his favor are a number of circumstances bearing out his contention that the property was given him. Young McDonell states that his reason now for bringing the action is the fact that some real estate men have a contract with his uncle to sell the place for $10,000 while it is in fact worth $18,000, and that if he can enforce his deed his uncle will not be able to carry out his contract.

Salinger's Union House

At the earnest solicitation of the Management of Salinger's Department Store, all our employees have given us their hearty cooperation and are joining the Retail Clerk's Association, thereby thoroughly Unionizing our house.

Our loyalty to Unionism will be further augmented by making the following offer: We will give to the most popular Union Man of Alameda County a Gold Hunting Case Watch, also to the most popular Union Lady a Gold Hunting Case Watch, both guaranteed for 20 years, under the following conditions:

With every 10c purchase you are entitled to one vote, thus if you buy $1.00 worth you are entitled to 10 votes, and so on. Keep your duplicate sales-checks, write name and Union connected with, of your choice or favorite plainly; this check or ballot will show amount of your purchase; hence there can be no mistake about the number of votes each check calls for; then deposit in ballot box provided for that purpose. This contest is now on and will conclude Saturday evening, July 1st, closing time.

The following Committee, appointed by the Central Labor Council, will have charge of this contest:

S. H. GRAY, Laundry Workers;
T. J. BURKE, Bartenders,
A. E. MAIDEN, Electrical Workers,
J. B. REBOLI, Retail Clerks.
P. C. WEBER, Cooks and Waiters.

These gentlemen, who no doubt are known to you, will have full and complete charge of this contest.

All ladies or gentlemen are eligible who are Union members in good standing and are affiliated with the Central Labor Council of Alameda Coumty.

Respectfully yours,

Salinger's

WOMAN BURNED IN EXPLOSION

MR. AND MRS. GEORGE DAVIS IN ACCIDENT AT HOME NEAR PLEASANTON.

PLEASANTON, June 2.—Mr. and Mrs. George Davis met with a peculiar and rather serious accident last Monday evening at their home at the Rancho Del Valle. The house is lighted with acetetine gas, and the light becoming somewhat dim, Mr. Davis went out to a small building in which the plant is located, and Mrs. Davis went along to assist him in recharging the machine.

Several cans which had contained the calcium carbide, from which the gas is generated, were standing near the door. Mrs. Davis struck a match and placed her hand near the top of one of these cans. Instantly there was a loud explosion, and both Mr. Davis and his wife were enveloped in flames. Mrs. Davis was blown through the door, but Mr Davis was blinded for the time being and was unable to go to his wife's assistance When he finally succeeded in getting out he found his wife standing in the yard quite badly burned about the face and neck, but fortunately her clothing did not catch fire. Mrs Davis was under the care of a physician for several days from the effects of the burns.

HARBOR LODGE I. O. O. F.

Harbor Lodge, No. 253, I. O. O. F., held an exceptionally interesting meeting on Wednesday evening, May 31. The first degree was conferred on three candidates in a creditable manner and the representatives to the grand lodge made reports, giving in detail the work transacted by that body. Harbor always has something entertaining to present to the brothers and visiting members, which accounts for the large regular attendance. At the next meeting night, Wednesday, June 7, election of officers will take place. As there are several candidates for each of the different positions to be filled, lively contests are anticipated. Visiting brothers are always welcome.

LIBERAL WON THE ELECTION

LONDON, June 2.—The bye-election in the Whitby division of the North riding of North Yorkshire yesterday, following the succession of Ernest W. Beckett to the Grimthorpe peerage owing to the death of his uncle, Baron Grimthorpe, April 23, resulted in the election of a Liberal, Noel Buxton, by a majority of 445 over Gervas E. Beckett, unionist, brother of the last member for Whitby. This was a crushing defeat for the government as the election was fought mainly on the fiscal question and in view of the fact that Whitby had been a conservative stronghold for twenty years.

EXERCISES AT LIVERMORE

HOW MEMORIAL DAY WAS OBSERVED—SOME NEWS NOTES.

LIVERMORE, June 2.—Memorial Day was fittingly observed at this place. The business houses closed during the afternoon, when exercises were held at the Masonic cemetery. A procession was formed about 2 o'clock, led by a carriage in which were the orator of the day, D. M. Couviers, Rev. H. W. Baker and Colonel W. E. Stevens of San Francisco. Following this in order came the local band, Company I, N. G. C.; the school children in several large stages and private citizens. The procession went to the cemetery, where the exercises were held. The program consisted of an address by D. M. Couviers; prayer by Rev. H. W. Baker; a song by the school children; the reading of Lincoln's address at Gettysburg, and other similar appropriate pieces. The services were closed by the firing of three volleys by the members of the militia. At the conclusion of the exercises the military company marched to the Catholic cemetery, where several deceased soldiers are laid away and again fired a salute in honor of the dead.

The members of the Prelude Club gave their closing concert last Wednesday evening in the club rooms of the Palette, Lyre and Pen Club on Thirteenth street The program began with a duet by Misses Ruth Rollins and Edna Beckert, and then followed piano solos by Misses Mildred Porter Hazel Shay and Lucille Radcliffe, and songs by Misses Irene O'Connor, Ramona Radcliffe and Ramona Rollins

The rooms were prettily decorated and at the conclusion of the program light refreshments were served.

SOCIETY PLANS FOR VACATION

SOCIETY FOLKS DEPART FOR COUNTRY HOMES—PERSONALS.

NEWHALL-O'MEARA.

A very pretty June wedding took place yesterday in St. Paul's Church, San Francisco, when Miss Alice Livingston Newhall became the bride of Rev John Alexander O'Meara, D D. The marriage service was read by Bishop Nichols, assisted by Rev. William Reilly, rector of St. Paul's, and was witnessed by a large and fashionable gathering The church was beautifully decorated with palms and great clusters of white blossoms

The bride wore an exquisite gown of shirred and plaited chiffon over satin and carried lilies of the valley. The bride's sister, Miss Leilah Newhall, was maid of honor, and wore white chiffon The bridesmaids were Miss Constance Jeffreys, Miss Carrie Mills, Miss Bessie Coghill and Miss Johnson They were gowned two in white and two in pink chiffon After the ceremony there was a large reception at the home of the bride's mother on Clay street

Dr and Mrs O'Meara will visit San Francisco after their honeymoon and later will make their home in San Francisco

THEATER PARTY.

Mrs F Hammond entertained a party of friends last evening at a delightful dinner given across the bay, and later in the evening, Mrs Charles Tulloch entertained the same group at the Columbia, enjoying "The Duke of Killicrankie"

Those who enjoyed the pleasant affair included Mrs. Charles Tulloch, Miss Lila Tulloch, Mrs. F. Hammond, Miss Nora Hammond Miss Frances Hammond, Miss Bertha Toombs, Mrs Nora Ryle and Miss Jemima Ryle.

HOME WEDDING.

The marriage of Will Goodrich Dandy and Miss Mary Catherine Jessup will be solemnized Thursday, June 8, at the home of the bride's parents, Mr. and Mrs. George W. Jessup, of 458 Fairmount avenue. The wedding is the culmination of a college romance, begun while both young people were students at the State University

After a brief honeymoon trip the young people will make their home in Los Angeles, where a pretty residence has been built and furnished for them.

WILL RETURN.

Miss Marie Butters, who has been spending the last year at a New York finishing school, will return in a few days. Miss Butters has been the guest of Mrs. Victor H Metcalf at Washington for the past week.

Mrs. William Pierce Johnson, with Miss Arline and Miss Josephine Johnson, are in Boston, and will return after a brief visit to Eastern friends.

KINDERSPIEL.

A pleasing entertainment will be given at Cadet Hall on Fifteenth and Jefferson streets Tuesday evening, June 6, for the benefit of the Y. W. C. A. social settlement on Dennison street. Sixty young people and children have been taught to read music by the Tonic-Sol-Fa system of notation, and Mr. James Rattray has had charge of the chorus work.

The Kinderspiel is entitled "The Happy Family," words and music by John C. Grieve, F. E. L. S., of Edinburg, Scotland. The scene of the play is Green Elms Cottage, residence of the Old Woman and family who lived in a shoe. Her children, who have been absent, come to see her on her birthday. Aladdin, the eldest, tells of his wonderful adventures and magic lamp. He is followed by Sinbad the Sailor, Blue Beard, Ali Baba—some of the crew of the Nancy Lee; Robinson Crusoe and others.

The daughters, Miss Muffett, Marjory Daw, Dorothy Draggletail, Cinderella and Goody Two Shoes, play an important part. The old woman gives them good advice and tells them to forget the past and be a happy family.

A game of blind man's buff and tug-of-war enliven the evening, and the Old Woman whose birthday the children have been keeping, says "it has been the happiest birthday of my life."

Some of those who are specially interested in the success of the play are Mrs. George H. Collins, Mrs. W. A. Childs, Mrs. J. A. Beckwith, Mrs. D. W. C. Gaskill, Mrs. C. W. Kellogg, Mrs. J. R. Ames, Miss Pauline Collins, Miss K. E. Cole, Mrs. W. H. H. Graves, Mrs. A. C. Henry, Mrs. K. L. Bliss, Rev. C. R. Brown, D. Edward Collins, J. R. Taylor, H. Hamilton, Dr. A. K. Crawford.

AN ENTERTAINMENT.

The pupils of the Unitarian Sunday School, under direction of Mrs. Sydney J. Yard, give an entertainment for the benefit of the school, in Wendte Hall this evening.

PERSONALS.

Mr. and Mrs. Ferdinand Stephenson have taken a cottage in Ross Valley for the summer.

Mr. and Mrs. Raymond A. Perry of Tenth street leave Monday for the East. On their return work will be commenced upon their new home at Claremont.

Miss Alice Shannon and Miss Florence Nolen leave tomorrow morning for Grass Valley, where they will spend a vacation with friends, returning about August 1.

Mrs. William T. Gibbs of Tenth street is spending the summer with her sister, Mrs. Mary F. Babb, in Woodland.

PAINTERS' UNION TO CELEBRATE

MAKING PLANS FOR LABOR DAY—MONEY SENT TO CHICAGO STRIKERS.

There was a great deal of discussion last night at the meeting of the Painters' Union, No 137, concerning the celebration of Labor Day It was decided to have a good time separate from the Central Labor Council, with which the union is not affiliated There will probably be a picnic, and it is expected that the painters will have a parade through the streets of Oakland earlier in the morning

It is the intention to invite the other building trades local of the city to join in and have the celebration jointly At the next meeting there will be made further arrangements after which the permission and co-operation of the Building Trades Council will be asked.

At the meeting last night there were two new members initiated One application is on file and the applicant will be taken in at the next session

COUNCIL TO CELEBRATE.

At the last meeting of the Central Labor Council it was decided that the unions affiliated would have an outing of Labor Day The place for the picnic is to be selected by the committee from the different local which met last Sunday and will make further preparations day after tomorrow In all probability the usual parade will be omitted on account of the strenuous objections of many of the unionists who think the occasion should be a day of rest

FOR STRIKES

The sum of $250 has been sent by the Council to the Chicago Teamsters Unions which are striking The money is sent to E L Turley at Indianapolis the secretary-treasurer of the International Brotherhood of Teamsters

Committees from the Ice Wagon Drivers' Union Local 610 and from the Milk Wagon Drivers were present at the session of the executive committee Wednesday evening A small difficulty in the former union was satisfactorily adjusted The Central Council will assist the Milk Wagon Drivers to revive interest in their union, which has need of assistance

COOKS AND WAITERS

Five candidates were initiated into the Cooks and Waiters' Alliance No 31 yesterday afternoon and five applications for membership were received The meeting was short and nothing of importance was transacted

There will be another meeting of the union this evening to consider the question of the unsigned wage agreements The employers have refused to renew the agreement this year, though the provisions are identically the same as last The one now in force expires tomorrow noon and if the new papers are not signed there is nothing to prevent the cutting the wages and lengthening of hours

Some of the members of the local have said that there would be a strike if the proprietors do not come to time but the officials are silent in the matter They say that nothing has been decided and the question will not be settled until this evening

A Protective Association has been formed by the proprietors of the chief restaurants in town and the members have put up bonds of from $100 to $250 that they will not sign

TROUBLE QUELLED

NEW YORK, June 2—Details of the revolution which was reported Wednesday as having broken out against the local government in the province of Santiago del Estero show, cables the Buenos Ayres correspondent of the Herald, that the affair is practically quelled The President of the Legislature a brother of the Governor, dispersed the revolutionists within the city of Santiago and has sent police forces to the interior

The provincial Government requested intervention of the Federal forces who are said to have already routed the revolutionists The latter fled to the woods

TRAFFIC MEN TO MEET

PORTLAND Or June 2—Monday June 5 and for four days following, the Transcontinental Passenger Association will meet in this city Contrary to the impression that was prevalent some time ago the association will be confronted with a large docket

This association has forty-two members and from all accounts all but two will attend the meetings next week Already various members from California and Nevada have arrived in Portland

WEDDING DATE.

The marriage of Miss Esther Macdonald and John F. Seulberger will take place Tuesday, June 6, at the home of the bride's brother on Merrimac street Miss Daisy Seulberger will attend the bride and the wedding will be one of the prettiest events of the coming week.

NOW IS THE TIME FOR HYOMEI

Far Easier to Cure Catarrh Now Than at Any Other Season

Now is the time to use Hyomei when the early summer days make it so easy to cure catarrhal troubles The Hyomei treatment breathed for a few minutes three or four times a day in May or June, will do good twice as quickly as it did in January and really everyone knows that used faithfully then it completely rids the system of catarrh

Hyomei is a purely vegetable preparation whose active curative properties are given off when it is breathed by the aid of the pocket inhaler that comes with every outfit It destroys all germ life in the air passages purifies the blood by supplying additional ozone, and its healing volatile antiseptic fragrance reaches every corner of the respiratory tract as no medicine taken through the stomach can possibly do

The complete Hyomei outfit costs but one dollar, and consists of a neat inhaler that can be carried in the purse or vest-pocket and will last a lifetime, a medicine dropper, and a bottle of Hyomei Extra bottles of Hyomei can be procured, if desired for fifty cents

At this season of the year when catarrhal troubles can be so quickly and readily cured the merits of the Hyomei treatment should be carefully investigated by everyone and a complete outfit should be in every home Osgood Brothers give their personal guarantee with every Hyomei outfit they sell to refund the money if it does not give satisfaction There is no risk whatever to the purchaser of Hyomei.

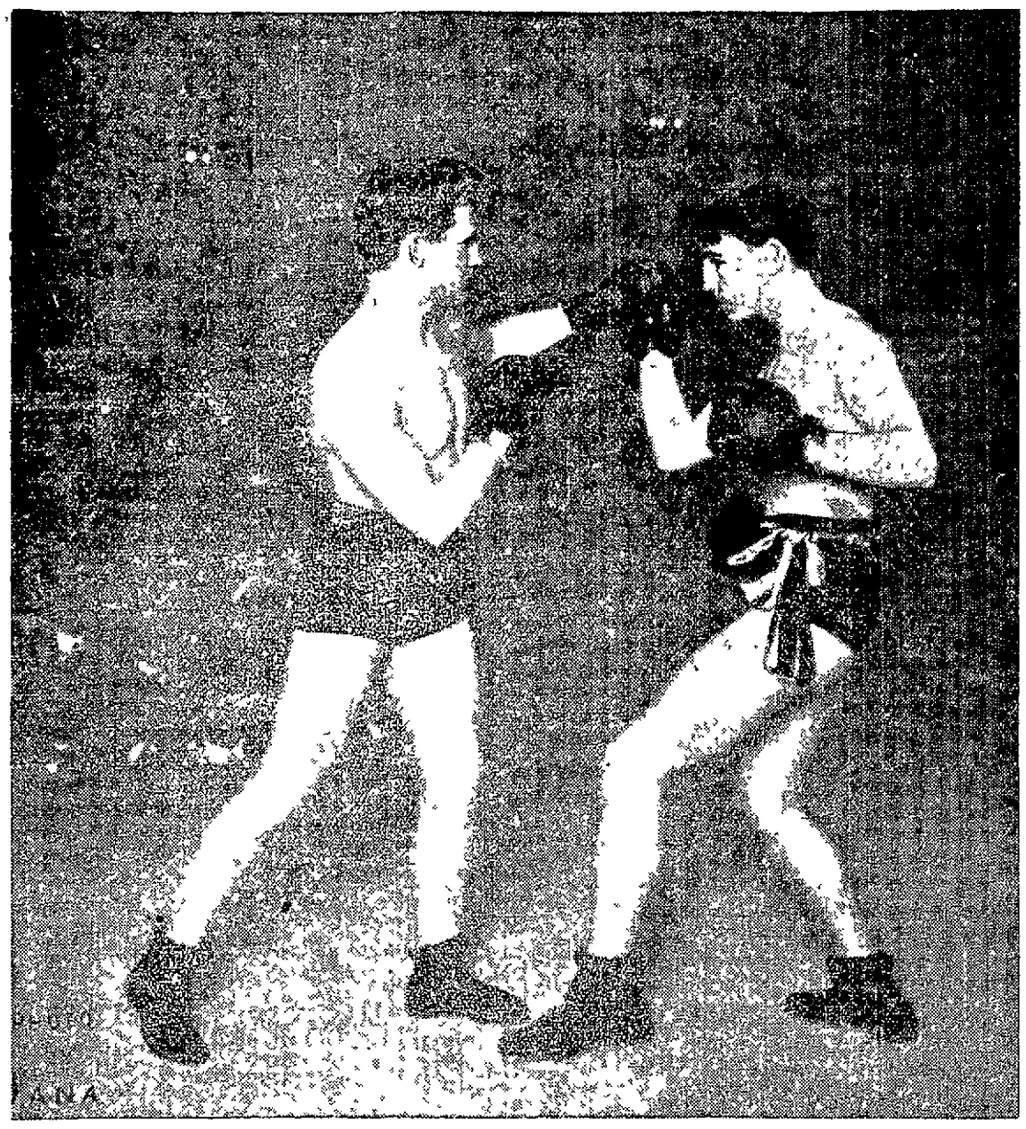
HANLON For the Third Time Will Enter the Ring With CORBETT

TWENTY-ROUND CONTEST IN WOODWARD'S PAVILION TONIGHT



YOUNG CORBETT. EDDIE HANLON.

Here is how Young Corbett and Eddie Hanlon will appear in the ring at Woodward's Pavilion, San Francisco, tonight. —Photo by Dana, San Francisco

Both Little Men Close to Required Weight

CORBETT STILL REMAINS A FAVORITE IN THE BETTING AT 10 TO 6. THE FIGHTERS WILL STEP ON THE SCALES AT 6 O'CLOCK TONIGHT, AND FROM ALL INDICATIONS WILL BE AT WEIGHT. CORBETT WEIGHED A FEW OUNCES OVER 130 POUNDS WHEN HE RETIRED LAST NIGHT, AND HAD TO DO SOME LIGHT WORK TODAY TO REDUCE. HANLON WAS PRACTICALLY AT WEIGHT LAST NIGHT, AND HIS EXERCISE TODAY CONSISTED OF ONLY A SHORT WALK AND A DRIVE.

As the result of adverse criticism, Mark Shaughnessy, who had been chosen to referee the Corbett-Hanlon fight, last evening withdrew, and at a call from Aleck Greggains the parties to tonight's pugilistic affair met and selected Ned Homan, a San Francisco fight fan, to be the third man in the ring

Following is Shaughnessy's letter declining the position as referee:

"I have been informed that for some unknown reason a dissatisfied feeling has arisen, from a source that I am unable to locate, regarding my appointment as referee in the coming fight between Corbett and Hanlon. For a period of twenty years I have been connected with the sporting game, and as yet my honesty and integrity have never been questioned. Every act of my life in connection therewith is above reproach, and I feel that an injustice has been done me. As a thorough sportsman, and one who loves the game too well, I at this time take occasion to decline the offer made to me, which every person connected with this matter will truthfully say I never sought

"At this time I desire to thank Messrs. Corbett and Hanlon for the courtesy extended and the confidence reposed in me by their selection, but I deem it my duty that I owe to the public and the press to respectfully decline to take part at this time in an affair that might lead any one to believe that I sought in the slightest manner, to injure the game."

Aside from the above letter, Mark Shaughnessy spoke as follows today to a TRIBUNE reporter

"I never asked to referee the fight. I was selected by the fighters. Both agreed on me. Saturday last I asked Aleck Greggains about it, and he said I was acceptable to him. Some other referee perhaps was dissatisfied who wanted the fee. I don't need money There is $2,000 here, and there is $500 of that for any person who can show that I was ever mixed up in any unfair deal, for I can show that I don't owe a dollar to any man If I was going into the preaching business, it might be time enough for them to holler"

Although at the time Homan was selected it was not positive that he would consent to act as referee, still Greggains has indirect assurance that he will be the judge of the contest If, however, Homan does not appear to referee the contest Greggains himself will act.

Both Corbett and Hanlon are fit to go a twenty-round ring journey tonight. Hanlon is at weight, and Corbett last night weighed 131½ pounds, so that when both boys appear at Greggains' cafe at 6 o'clock to weigh in it is anticipated that either will raise the bar above the 130 pound mark.

ALECK GREGGAINS.

Aleck Greggains is champion middleweight pugilist of the Pacific Coast, manager of the San Francisco Athletic Club, which is managing the Hanlon-Corbett fight in Woodward's Pavilion, San Francisco, tonight, and one of the most energetic and successful promoters of the sport in the country. He is known as one of the squarest sports in the State His fights are always on the square, and are generally a great success.

WESTERN HORSES ON THE EASTERN TRACKS.

BY "NESTOR."

Shotgun the crack sprinter from the Jennings bunch ran poorly last Saturday at Gravesend In a six furlong affair he was second into the stretch where he stopped badly The horse is thought to be short and will doubtless round to form before the meeting is over

* * *

Military Man, belonging to the string of Garnett Ferguson is in good shape at Sheepshead Easterners think well of him.

* * *

Autolight who has not had winning brackets for a year came suddenly to life at Louisville last Saturday and won a mile event at odds of 25 to 1 The horse made one of his famous stretch runs.

* * *

Silverskin won a seven-furlong dash on the same day that Autolight won

* * *

Salvable is in great shape and it would not be surprising if the old fellow annexed a couple of stakes this season

* * *

Zelax, a filly trained by A J Joyner is worth a bet the next time she starts Her trainer hopes to earn several brackets with her at Gravesend and Sheepshead She turned six furlongs the other day in an impressive manner

* * *

When C E Durnell saddled Big Ben and New Mown Hay for the opening race last Monday at Gravesend it was his first action of the kind on Eastern tracks since he was in trouble in France three years ago

* * *

No sooner had Hildreth been told of his good fortune than his cup of joy began to overflow—he took on the mercurial spirits of a Frenchman and began to run amuck in the paddock advising his friends of his restoration Espying John Madden he moved east ward him extending an exultant hand

"I congratulate you Sam said Madden the smile on his face answering to his unfeigned sincerity

"Let bygones be bygones responded Hildreth, his eyes twinkling with delight, and the friendship that had been sundered for so long a time had been sealed again

* * *

J E Widener has purchased from Bill Phillips trainer for Fred Cook a full brother to Good and Plenty the country's champion steeplechaser The horse is called King Fox and is four years old He will be tried at steeplechasing in the hope that he may emulate the good example set by his older brother He has raced but little and during his career in Cook's stable was used as a work horse for English Lad The price paid was said to be $ 30 King Fox will have a trial at jumping without delay as the horses in Mr Widener's stable are all off at present

* * *

Evidently J J McCafferty has an exalted opinion of Colonel Ruppert's running qualities judging from a little episode that happened in the paddock at Gravesend A well known turfman being impressed with the east manner in which the Colonel had disposed of his antagonists asked his owner to set a price on him McCafferty was silent for a moment and then said that about $3,500 would do Faster than Delhi devoured space down the final quarter Friday she would be purchaser rushed away only to return in a few moments with the amount The trembling anxious manner in which he handled the bills led McCafferty into the belief that he was about to fall a victim to a Gluucus swap Without mincing words he told the astonished admirer of the Colonel that he had made another deal Well how much, Mr McCafferty will tempt you to part with the colt? At this juncture McCafferty suddenly remembered that he had an engagement in Hoboken to tell a friend a funny story and he flew from the paddock with his coat tail fluttering back of him in a horizontal line

* * *

The Western horses were in evidence the other day at Gravesend also The Texas entry Big Ben and New Mown Hay was made the choice for the opening race and heavily backed out a poor send off contributed to the defeat of Big Ben He was beaten a short head by Toscan In the third race the Western colt Klingsor beat a fair lot of two year olds including Jerry Wernberg Waterbok and others of supposed class One of the contenders in this race was Dr Hollis who carried the colors of F T Wood the Texas horseman Wood is one of the characters of the Western turf and invariably has a good sprinter or two in his barn Dr Hollis is out of Dorah Wood a very fast mare for a short distance who won many races for the Texan ten years ago in the West and South This is Wood's first appearance in the East for half a dozen years

At the time Voter was in his prime as a sprinter Wood brought a filly here that he believed was a champion sprinter She was a Texas bred miss called May Beach There came a day when May Beach and Voter met in a race

They say this horse Voter can sprint some Wood said to Judge Hall Well we will see today for he will have to beat the fastest filly in the world

Voter was feeling in unusually good mood that day and after stepping the first quarter in close to 22 seconds ran so far away from May Beach that she didn't know she was in the race

Well I guess he can sprint all right said Wood after the race but no faster than I can on a return Western trip We go by the next train

GOOD DRIVING RACES ON CARDS

SAN JOSE, June 2.—The opening of the San Jose Amusement and Driving Park on Saturday the 10th inst, will be marked by one of the best race meets held in the State for some time. The track and grounds have been improved recently under the direction of F S Granger at a cost of $30,000 There will be six races in which some of the fastest horses on the coast are entered Suitable purses will be given. Among the horses which will take part are Kinney Lou, 2 07¾ Dr Hammond 2 12 Rapah 2 10, Brilliant Girl 2 07½ and Bird Catcher 2 13 Alone which is said to be the fastest horse on the coast will try to make a mark of 2 02 She has a record of 2 09¾ In a trial she has made a half mile in 59½ and her owners believe she can show a mile in 2 02 High Fly and Just It, two of the fast three year old pacers in the country, will give an exhibition

Following the races there will be a balloon ascension with a parachute leap A scenic railway and other attractions are being erected at the park and a zoo is soon to be established. It is proposed to make the park one of the amusement places of the State.

BIG ATHLETIC MEET HELD TODAY

CHICAGO June 2.—The trial events of the Western Inter-collegiate championship in track and field athletics were held today on Marshall Field. Unwieldy fields and the varied quality of entries for the quarter mile run and the pole vault caused the managing committee to decide upon a plan to eliminate from both events contestants who are not top-notchers The aim was to bring the real stars together in the finals with the hope of bettering former records

There are 35 entries in the quarter mile and 22 in the pole vault The quarter mile was run in three heats with the first second and third in each heat qualifying In the pole vault only those who cleared the bar at ten feet six inches or over will be able to compete tomorrow

BIKE RACES ON SAN LORENZO TRACK

HAYWARDS, June 2.—Plans are being made by the proprietors of the Marlin race track in San Lorenzo to have a number of bicycle races there as a part of the Fourth of July celebration The track has lately been completed, and is intended primarily for horse races, though none have been run there yet With a little improvement it will be good enough for wheel racing

Jack Marlin, the chief owner of the property, has been making inquiries and has found that there are a large number of amateur cyclists about the Bay who would be glad of a chance to display their prowess if the course is prepared

The Eden Wheelmen will probably make arrangements for a race at the same place about the midle of July.

BIKE RIDER BREAKS A RECORD

OGDEN, Utah, June 2.—In the three mile open lap race at the Glenwood saucer track last night in which ten professional riders were entered, N. C Hopper of Minneapolis broke the world's record of 6 11, made by W. E Samuelson in Salt Lake City July 12, 1904 by riding the three miles in 6 07 3-5

CHERRY LASS WINS OAKES STAKE

LONDON June 2.—The race for the Oakes stake of 5,000 sovereigns was run at Epsom today and won by Cherry Lass, Queen of the Earth was second and Amitie, ridden by Maher, the American jockey, was third. Twelve horses started.

HYLAND AND WALSH MATCHED

Sam McClintoc manager for Dick Hyland one of the youngest and most promising of the light-weights of the Coast has matched his man to fight Jimmy Walsh of Butte Montana, a doughty boxer of that mountain region

The initiative in the matter was taken by Walsh's friends in Butte, who yesterday wired Manager McClintic in San Francisco asking whether he would match Hyland for a go with Walsh on a most favorable distribution of the receipts of the fight

McClintic felt that Hyland was anxious to have a bout with Walsh and was convinced of this fact when, on laying the case before his protege, found that the latter jumped at the offer

McClintic immediately wired an acceptance to Butte, Montana, and the fight as a consequence, will take place in that city, June 13th, at 3 o'clock in the afternoon The men will weigh in at noon

June 13th in that region is what is known as "Miners' Day." It is a day of rest for some, and festivity and sport for others, and fights pulled off there on that date have drawn $13,000 houses

McClintic and Hyland are now awaiting railroad tickets from Butte, and, in the course of a few days, will be on their way to the field of battle.

Dick Hyland is a graduate from the amateur class, having vanquished all-comers When he could get no more in his class, he entered the professional ring, made a good showing against Eddie Hanlon and recently getting a decision as against Louie Long in a battle at Grass Valley The last mentioned town is Dick's home and he has the esteem and confidence of every miner in that section.

O'BRIEN AND MUNROE MATCHED

(Special to THE TRIBUNE)

NEW YORK June 2.—Jack O Brien the great middleweight of Quakertown is matched to meet Jack Munroe the Butte miner No date has been set for the contest Both men are evidently waiting for some club to book the match This should be a great battle to witness for the big miner would be a splendid feeder for the slippery Philadelphian who would be forced to go at top speed all the time in order to avoid a mix-up with the big miner from Montana. Such matches always prove satisfactory to the spectators O'Brien's speed and cleverness would have to stand off Munroe's strength and hitting ability in order to escape defeat while the latter would have to step right into the firing line and keep trying to save himself from being smothered by the shifty O Brien.

HART AND ROOT LEAVE FOR RENO

RENO, Nev., June 2.—Marvin Hart and Jack Root, the two heavyweight fighters who are to battle for the championship of the world in this city on July 2d left the East for Nevada yesterday Hart intends to train in this city and will probably go to Shaw's Springs, near Carson where Corbett prepared for his battle with Fitzsimmons Both fighters are accompanied by trainers and will immediately begin work on arriving in Nevada.

The contract for the large arena in which the contest is to be held was let today to Reno contractors It will have a seating capacity of 6000 and the prices for seats will range from $10 to $2 Al Livingston and Dan Eagan who are managing the match claim that it will be one of the greatest fistic contests ever fought, and expect a large crowd of sports from the East to witness it. The managers are arranging for a preliminary bout between some of the lightweight favorites

LOU DILLON IS TO BE SENT EAST

SAN JOSE June 2.—Lou Dillon, the queen of the trotting turf, will leave San Jose next Monday for Cleveland, Ohio The mare is in good condition and has gained more than 100 pounds since she has been under the care of Budd Doble, the well known horseman. While here most of the work of Lou Dillon has been jogging on the roads in order to wear off all her nervousness The last couple of weeks she has done some track work, her fastest mile here being 2 11 She will be sent East in a private car under the care of a groom After a short rest at Cleveland the work of preparing her for speed tests will be taken up. In all probability Lou Dillon will winter here next year, as the climate has been so beneficial to her.

AUTOMOBILE NOTES

When the transcontinental racers, Huss and Megargle, who are traveling from New York to Portland, Oregon, in Olds runabouts, reach their destination they are to participate in the good roads convention at the Exposition there They will undoubtedly be able to tell about a condition of the roads in this twentieth century that should make the government itself "stop listen and look" before continuing big appropriations for every sort of improvements except highways

Such an enthusiasm over 1000 mile record runs on the track, and twenty-four hour races, has suddenly set in, that it seems really probable the near future may develop a six day, go-as-you-please race. As such an event would have to be run out of doors, the rigors of the weather would be added tortures for the drivers and some horror features might be offered the public quite as interesting as those of the old fashioned six-day pedestrian and bicycle contests.

"Smiling" Schmidt failed to puzzle the Northern batters yesterday on the Eighth street lot and was landed on for eleven hits Result, Tacoma 4, Oakland 0

On behalf of the commuters Captain Van Haltren protested the game because of a decision given by Umpire Bray The protest came in the ninth inning while Truck Eagan was at the bat Bray called a foul strike and then Van Haltren protested.

It is doubtful however if the protest will stick for the reason that the result in no way affected the game Dunleavy was hurt in the seventh inning in a slide to second base and was relieved by Cook who allowed a run to be made Here is the score

PORTLAND, Or., June 2.—Portland's lucky inning won for the Webfooters their second game against Seattle yesterday by the score of 5 to 2 Except in the sixth inning there was not a hit scored against Charlie Shields who struck out ten men, but in that fatal sixth the locals landed on him hard He went up in the air, and, with the six hits they made the Portland men had five runs Both of the Seattle tallies were scored on errors One came in the first, when McCreedie threw wild to second, and the other came by reason of a high throw over first by Atz

LOS ANGELES, June 2.—Los Angeles won yesterday's game in the first inning by scoring four hits that netted an equal number of runs Henley and Irwin both made costly errors in this inning Los Angeles scored again in the seventh on a double by Toman a sacrifice by Spies and Hall's hit to first. San Francisco scored their two runs in the second inning Hildebrand opened up with a home-run hit over the left field fence Irwin reached third on Toman's wild throw to first and scored when Nealon drove a double to right With the exception of this inning Hall held the northern team safe at all stages Henley also pitched winning ball but costly errors allowed Los Angeles to pile up runs

Good Gloves at 1/4 Saturday

This is the annual opportunity of the people of this vicinity to buy good gloves at a quarter of their usual selling price.

This is a bold statement to make but it is true—let us explain it. We do an immense glove business, we sell more gloves of all grades than all the other stores combined on this side of the Bay.

Glove makers are not infallible. Sometimes—not often—they send out gloves that are not quite perfect. We send them back to the factory and after being repaired they are returned, at a big discount of course.

Again a seam will sometimes open and in such cases, we always give a new pair. The other pair repaired is as good as new. For such reasons as these good gloves accumulate and we mark them about one-half price. We have put all these gloves into one lot and for this sale we will cut the reduced price squarely in half—for instance—you will get a $1.00 glove for about 25c; a $2.00 glove for about 50c and so on.

Two Other Specials

No. 1

A high-grade of lisle suede—a regular 50-cent quality; all colors and sizes; wash well and do not shrink. Special 35c pair

AN INTERNATIONAL BUREAU.

WASHINGTON, June 2.—Ambassador White has cabled the State Department from Rome a report on the international agricultural conference now in session there, saying that it appears to be the general opinion in Rome that the conference will recommend the appointment of an international bureau for the collection and diffusion of information on lines similar to that of the Berne Postal Bureau.

TO CLAIM A BRIDE

Prominent Man in University Town on Mission.

BERKELEY, June 2.—H. S. Brasfield, formerly manager of the Faculty club house at the University of California, and known to thousands of college students, has surprised his friends by departing for Portland, where he is to marry.

Miss Ina Albright of Portland, daughter of a pioneer family of Oregon, is the bride-to-be. Her mother was the late Mrs. Kate Albright, who in company with her husband settled in Oregon when that country was a trackless wilderness. Miss Albright is also the niece of Captain and Mrs. Strange of Portland, both of whom are well known in the north.

The wedding is to take place at the home of Mrs. Albert Osmund, a sister of the bride, on the evening of June 10. Mrs. Osmund is to be the matron of honor and A. S. Brasfield of Portland, a brother of the groom, will be the best man. After a short honeymoon Mr. Brasfield and his bride will return to Berkeley.

WHIST PARTY AT ELMHURST

ELMHURST, June 2.—At the whist party given at the home of Dr. and Mrs. W. F. Lynch Wednesday evening, there were present all the members of the Pastime Whist Club. The winners of the prizes were Frank Hopkins, S. M. Smith, and Mrs. H. W. Tutt.

VISITS SCHOOLS.

F. S. Rossiter, who has lately been selected by the Board of High School Trustees as the principal of the new institution, was in Elmhurst yesterday visiting the public schools, from which will come almost all of the students for the high. Besides the grammar school here, he went to those of Melrose and Fruitvale.

The Trustees think that they have made a good selection as Mr. Rossiter comes highly recommended by the citizens of Redwood City, where he has been in charge of the High School for a number of years. He was educated at Marietta, Ohio, and taught several years at Portland before coming to California.

MAY BE A SPY

VICTORIA, B. C., June 2.—Advices were received by the steamship Kanagawa that a strong case is being made out by the Japanese Government against Captain Bergouin, a prominent Frenchman of Tokio, formerly of the French Legation, who with his son-in-law and a Japanese engineer in his employ has been arrested, charged with being a spy in the Russian service. Copies of messages alleged to have been sent to Russian agents giving information with regard to movements of transports, warships and troops were found in his residence at Tokio. It was stated that the transports Hitachi and Sado were intercepted and the former sunk a year ago by the Vladivostok squadron because of information furnished by Captain Bergouin. Strong protests were made by the French Government regarding his arrest, but no notice is being taken by the Japanese Government, which has a strong case against the alleged spies.

NAVAL OFFICERS TO BE RETIRED.

WASHINGTON, June 2.—A naval board consisting of Rear Admirals Sands, Davis, Thomas, Snow and Bronson, with Lieutenant-Commander Plunkett as recorder, has been appointed to designate those officers of the Navy who are to be retired under the personnel act. About twenty, mostly commanders and lieutenant-commanders, have voluntarily applied for retirement. These will be retired and in addition it will be necessary to retire compulsorily five captains, four commanders, four lieutenant commanders and two lieutenants. Under the recent interpretation of the Attorney-General about fifty vacancies should be created under the personnel act, but as only fifteen can be compulsorily retired and the number of volunteers have not been sufficient, the full number of vacancies cannot be created this year.

FRUIT EXPERT SENT OUT BY GOVERNMENT.

G. H. Powell Comes to California to Assist in Solving Some Important Problems.

BERKELEY, June 2.—Throughout Northern California fruit growers are awaiting with interest the results of G. H. Powell's investigations, regarding the possibility of improving the methods of storing and transporting California fruit to the East. Mr. Powell, who is a pomological expert employed by the government at Washington to attend to fruit store and transportation problems, has been sent to California, to give the fruit men of this State the benefit of government service, applied to their particular troubles.

Mr. Powell has arrived at the University of California and held extended consultations with Professor E. W. Hilgard and other members of the agricultural college staff. He has just come from Southern California where he spent five months, working with citrus fruit men, assisting them in the work of storing and transporting the orange and lemon crop, and experimenting with transportation problems there. It is estimated by the citrus fruit men of the south that, through the work of Mr. Powell there has been saved this season, to the industry, from two to three hundred thousand dollars.

Orange growers have been able through the adoption of Mr. Powell's scientific methods, to know what quality of fruit should be discarded and what should be shipped. He found that about 25 per cent of the fruits brought from the orchards for shipment was susceptible to loss or deterioration en route, and his methods of detecting this percentage of imperfect fruit helped to solve the problem of lessening the loss.

An experiment which resulted successfully was the cooling of a car load of oranges to a temperature of 40 degrees, before the journey eastward was begun. Hitherto fruit had been put into a refrigerated car, and left to cool while en route. The advantage of icing the car and the fruit before the start was found to be apparent, and the experiment was a success.

The government conducts this sort of work at a dozen different stations throughout the country. Mr. Powell is to continue the work in Northern California, studying the problems that confront the growers and shippers of deciduous fruits here. He will work in harmony with the government experiment station at the University of California, and be constantly in touch with the officers here.

TROLLEY LINE IS EXTENDED

PEOPLE OF RICHMOND LOOK FORWARD TO INCREASED FACILITIES FOR TRAVEL.

POINT RICHMOND, June 2.—The extensions of the trolley line are now progressing rapidly. The shortage of fish plates is what delayed the work. The steel was here all right, but no fish plates could be secured until their arrival from the East.

The West Berkeley people are petitioning the Key route company to extend a line out to West Berkeley. If this were done the Richmond travel would be much better served. It will happen some time.

A large and appreciative audience witnessed a good entertainment at Shad's Hall last evening, given under the auspices of the Episcopal Church. Mrs. John William Jones arranged the program and to her a greater portion of the credit is due for its splendid rendition. Every number was a good one.

W. C. Gray has let the contract to A. C. Jenks for three cottages on his lot at the corner of Richmond and Santa Fe avenues. They will not occupy the corner. That will be saved for a substantial business building. These cottages will front a small street which he will open back of the corner building site. A cement wall will run through back of the business building.

Joseph D. Baldwin and Mrs. Sadie Steinback of this city were married by Father Scanlon Monday night at the parsonage of Our Lady of Mercy Church. The bridesmaid was Miss Virgie De Soto of San Pablo, and the best man was Thomas Baldwin, brother of the groom.

New houses are going up all over the east side. The greatest building boom appears now to be centered around the Southern Pacific station.

The baseball game between the Kelleher & Brown team of San Francisco and the Enterprise club of Richmond resulted in a score of 4 to 16 in favor of the Enterprises. The boys are improving right along and will soon be among the leaders. Quite a large crowd attended, the grand stand being entirely full, thus showing a continual advancement.

PERSONAL MENTION.

W. C. Breed of Oakland, father of the Auditor of that city, was in town looking over Richmond on Decoration Day. He was greatly surprised at the size of the town and the excellence of our railroad and deep water facilities. Mr. Breed predicts for Richmond a very promising future.

Mesdames J. B. Eakle and H. N. Barney departed for Woodland yesterday to visit at the home of the former lady's parents for a few days.

Mrs. William Gerken and her sister, Miss May Hoagland, went to Stockton yesterday and will spend a couple of weeks in the Slough City visiting relatives and friends.

Mr. and Mrs. C. A. Murdoch of Fresno have decided to locate in Richmond. They have rented I. C. Taylor's residence on Sixteenth street for the summer.

George Galbraith is up from Tulare county visiting his family. He expects to return to Richmond to remain permanently in a few weeks.

Judge William Lindsey is moving his family down from San Pablo today. They will occupy the Smart house on Richmond avenue. Judge Lindsey has been a fixture in Richmond almost from the start, but he has grown tired of going back and forth.

Frank Adams of the Richmond Lumber Company is enjoying a well-earned rest in the hills of Marin county. Mr. Adams' health has not been of the best lately and he is trying the effects of an outdoor life.

Al Hickok is up at the Geysers making arrangements to move there and take charge of the barber shop and bathrooms for R. H. Curry. Everything indicates a big season at the Geysers.

John Harlow, a son of Master Mechanic Harlow, went East on No. 5 last night. He goes to Janesville, Wis., for a few weeks' visit.

L. Chapman of San Jose was here yesterday, a guest of Lloyd Evans and Granville Schoen.

LOOKS LIKE SCANDAL.

LONDON, June 2—According to the Daily Mirror the report of a War Office committee on the improper disposal of military stores at the conclusion of the South African war reveals a huge scandal. The report, the paper says, censures a number of officers whose names are given and who are alleged to have worked in collusion with contractors. The latter bought stores at absurdly low prices and afterwards resold them to the military authorities at enormous profits, entailing a loss to the government of $5,000,000.

Mr. and Mrs. B. F. Bowman, Mr. and Mrs. F. W. Durgin, Mr. and Mrs. J. Armstrong, Miss Clara Bowman and Master Armstrong leave Sunday for Yosemite Valley. They will make the trip by wagon, camping at night. They will be gone a month.

TELLS OF TRIP OF DESTROYER

ST. PETERSBURG, June 2.—Lieutenant Durnavo, son of Admiral Durnavo, a member of the council of the empire and superintendent of posts and telegraphs under the Minister of the Interior, who is the commander of the torpedo-boat destroyer Bravi, has telegraphed from Vladivostok to Grand Duke Alexis, the High Admiral, an account of his adventurous voyage after the separation of his destroyer from the fleet on the evening of May 27, having in the course of the afternoon saved 175 officers and men of the battleship Oslabia.

The destroyer suffered considerable damage from a 6-inch projectile and was only able to speed eleven miles an hour. The mainmast was lowered and the funnel painted so as to render the vessel less conspicuous to the Japanese torpedo-boats, several of which were seen. On the night of May 29 a steam pipe burst, reducing the speed to five miles an hour. Lacking coal, all the wooden parts of the destroyer were burned for fuel before she reached Vladivostok.

WHY ONE IS SO WEAK

HOW TO OVERCOME THE LANGOUR OF THE WARM SEASON.

Winter Confinement Uses Up the Strength of the Blood and Fills the Body Full of Impurities.

Why do we feel out of sorts just when the hardships of winter are over and the out-of-door world begins to be attractive? We are feverish and listless and weak, while nature all about us is astir with fresh life, and the contradiction puzzles us.

The explanation is after all not so difficult. In winter the air of the close room in which to spend so much of the time does not furnish enough oxygen to the lungs to burn out the foul matter in the blood. Everyone knows the uncomfortable feelings that follow the breathing of bad air and that are cured by simply opening a window for a short time. The worst effects, however, are those which are stored up and do not appear at once.

In the cold season we do not exercise as much and the skin and kidneys do not throw off the waste matter as freely. The whole system gets clogged just as a machine does when it is not cleaned with frequency. The stomach does its work feebly and gets less nourishment out of the food. So there is weakness everywhere, weak organs, weak muscles, weak nerves.

When the warm weather comes, the system is found to be overloaded with poisonous matter, and too feeble to throw it off. Relief can be had only through the use of a remedy that will promptly and thoroughly purify and strengthen the blood, and the one best adapted for this purpose is the great blood tonic known as Dr. Williams' Pink Pills.

"They acted like magic in my case," said Mrs. Wilde. "I was weak and thin and could not sleep. My stomach and nerves were out of order. I can't describe how miserable I really was. I dragged through six months of feebleness, growing weaker all the time until I finally hadn't strength enough to leave my bed.

"Then a glad day came, the day when I began to take Dr. Williams' Pink Pills. They made me feel strong right away. My appetite came back, I took on flesh and the color returned to my cheeks. People wondered that these pills did for me what the doctors couldn't do. I took only a few boxes and then I was perfectly well. If I had not found this wonderful remedy I surely think that I must have wasted to death. Believing firmly that these pills saved my life by the strength which they gave me at a critical moment, I unhesitatingly recommend them to others."

Mrs. Clara L. Wilde lives at No. 377 Farnsworth avenue, Detroit, Michigan. Hundreds of others unite with her in testifying that Dr. Williams' Pink Pills build up strength even when nature seems completely exhausted, and reach the obscure cause of troubles that puzzle the best physicians. When promptly used, one or two boxes will generally give the right tone to the system.

Dr. Williams' Pink Pills do not produce false strength as some alcoholic preparations do. These pills do not contain a single grain of any harmful drug. They give strength that lasts. They may be obtained at any drug store.

A CIGAR ANNOUNCEMENT From Osgoods' Two Stores

It's about the

CEDULA

a 10-cent cigar Special at **5c**

During the past few weeks we have introduced an innovation into the cigar business of Oakland. We have made it possible for every man who enjoys a good, mild, fragrant, ten-cent Havana cigar, to secure it for a nickel.

THE CEDULA is a cigar that has earned great popularity because of its worth. It is an agreeable smoke; it is a nicely shaped, well-filled Havana cigar and can be had either mild or medium. By a special arrangement with the manufacturers, who are anxious to introduce the CEDULA more fully, we will sell this cigar for five cents at either of our two drug stores.

Finest of French Candy 50-cent Boxes 25c

Luscious creams and chocolates neatly packed; just as acceptable as if you paid a half, and you save a quarter.

All 12½c Cigars 10c

We say ALL because we mean it. Many dealers create a few 12½c lined with fancy names that they can well afford to sell for a time. We don't—and we do just as we say we will.

APPROVES OF WORK AT UNIVERSITY.

Professor Jaffa's Food Experiments Commended By Government Official From Washington.

BERKELEY, June 2.—It was announced at the Agricultural College today that the unique food experiments conducted for the Government by Professor E. M. Jaffa at the University of California will be the subject of an exhaustive and deeply interesting bulletin, to be issued after Dr. Walter H. Evans, the Government expert, who is now at the University, has passed upon the matter.

Dr. Evans, who is chief of the bureau of insular experiment stations of the United States Government, spent hours in conference with Professor Jaffa today, examining the multiplicity of data which Jaffa has compiled from his experiments at the University. The work done by Professor Jaffa received Evans' enthusiastic commendation. He remarked to a group of spectators: "Professor Jaffa knows more about this sort of work than any other man in the country—and ten times as much as I do.

"There are a number of these food experiment stations over which the Government has supervision," said Dr. Evans today. "This one in California has produced some mighty interesting and valuable results. The station has dealt principally with the experiments upon fruit and vegetables of California. Professor Jaffa has shown that nutritive qualities in unsuspected proportions inhere in all California fruits and vegetables. His forthcoming bulletin, to be issued in the near future, will corroborate all that has hitherto been published and also add to the extent of our information upon the subject.

"In Illinois the Government has a station where experiments are made upon human beings to determine the nutritive qualities of various meats.

"Perhaps the most interesting of all the experiments of this sort which the Government authorizes are those now being conducted at two or three points in the South, where it is being determined just how cheaply a poor family can live upon food that supplies sufficient qualities properly to maintain life. Poor families are used as the subjects of these experiments, and the results should be of vast benefit to that class of people."

Dr. Evans has just come from Hawaii, where he inspected the work of the Government men and recommended the introduction of diversified farming.

JEWELS TO BE SOLD.

NEW YORK, June 2.—Five sets of jewels which are said to have once belonged to Queen Isabella of Spain, will be sold here soon at auction. They are included to theHT E ETAOI They are included in the collection of gems bequeathed to the Stanford University by Mrs. Stanford. The valuation puts them at $1,000,000 and the other jewels to be included in the sale at as much more.

Mrs. George Perkins Lawton, a niece of Mrs. Stanford who resides in this aod ogfmmshrdluufmf omaof omaoff city, in talking of the sales, said that only Mrs. Stanford's most intimate friends knew that the Isabella jewels were owned by her. Neither Mrs. Lawton nor her husband could say in the exact manner in which Senator Stanford secured them.

RUSSIANS MUTINIED.

NEW YORK, June 2.—Details from a trustworthy source leave little room for doubt, says a Times dispatch from St. Petersburg, that Admiral Nebogatoff's sailors mutinied in the battle of the Sea of Japan and either threw the Admiral and many officers overor, according to another version, bound them in their cabins and hoisted the white flag.

Eight men in Nebogatoff's squadron were, it is again asserted, hanged for mutiny while still n the Red Sea.

GOOD BLOOD TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or acquired, but the seat of trouble is the same—the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge. DISCUSS IMPROVEMENTS FOR ALAMEDA.

West End Association Meets and Considers Many Subjects.

ALAMEDA, June 2.—The inception yesterday of the twenty-minute service on trains running through East Oakland and around the loop, via Park street station to the mole, with the Southern Pacific's plans for operating trains from the Alameda mole to the Railroad avenue branch by supplying the link needed, was responsible for much discussion last night at the regular meeting of the West End Alameda Improvement Association.

Within a few weeks it is understood to be the railroad company's intention to operate trains both ways on Railroad avenue, making a connection with the narrow gauge mole, while at present under the new schedule, local trains on that line run but one way, and passengers for Alameda residing near the West End who come by that route are carried around by Fruitvale, and reach Mastick station circuitously, occupying about fifty-eight minutes on the trip instead of 47, as was the case heretofore. It is to remedy this condition that the Southern Pacific purposes to make connection with the Alameda mole to provide for a part of the traffic of the north side of town.

President C. R. Smith had announced that the session of the West End Improvers last night would be devoted to a full discussion of a plan to offers the Southern Pacific a franchise to extend its line through the West End, providing more stations, instead of reaching the mole by way of Webster street marsh, with the connecting link near the Webster street bridge, where the company already holds a right of way.

The Southern Pacific had not made any application for a further franchise to this end, it was stated, but the proposition was to be considered from the standpoint of the best interests of Alameda, and particularly the West End. Attorney George T. Wright was present and urged the view that an extension of the railroad passenger service through the West End would greatly benefit the district, provided more stations were secured, and would soon bring about an increase in the settlement and the cutting up of large tracts, now remote from railroad facilities. A warm discussion followed, residents of Railroad avenue strongly opposing the re-laying of tracks on that thoroughfare for the distance of four blocks from which, after a long fight, they had been removed under the terms of the railroad franchises granted last year.

Mr. Wright said he was merely arguing on a broad view for what he considered the best interests of the city, and particularly of the West End, and he thought the citizens of that end of the city, as represented by an improvement association, should go so far as to try to induce the railroad to extend its line direct through the West End. Citizens should pull together for the good of the whole town, and avoid sectionalism. It was a well understood principle that the individual interest should give way for the good of the majority.

Attorney Wright found a few who agreed with his views, among them C. C. Volberg, who declared that Railroad avenue was "dead, and suffering from dry rot," and Secretary Mehrtens, who asserted that no district was ever built up by a cow path. The majority, however, were rabidly opposed to making any overture to the railroad, and especially as regarded laying tracks on Railroad avenue. Phill Kiernan said the Association would stultify itself by any such action, that the thoroughfare would be ruined by tracks and trains.

There were pointed references to the late franchise agitation, and much discussion followed. Kiernan put through a motion, to the effect that the association would not invite the railroad to re-lay tracks on Railroad avenue, and that it was opposed to their being laid there. A standing vote was taken, there being thirty-eight ayes to three nays.

Mr. Wright said his remarks did not refer particularly to Railroad avenue, and that the giving of a franchise on Eagle or Pacific avenue might accomplish the same results. However, after much arguments; when S. S. Green moved that a committee of three be named to consider the matter of inviting the railroad to lay further tracks in the West End, the motion was lost by an overwhelming majority.

FIRE ON PARK STREET.

ALAMEDA June 2.—There was a lively fire yesterday afternoon on the roof of the Contra Costa Water Company's building on Park street. At 4:22 o'clock an alarm from box 42 summoned the department to extinguish the blaze which was in the wooden covering of the big tank on top of the tall brick building. When the firemen arrived they found a section of nine or ten feet in flames. One of the employes of the water company, John Cavanaugh, fell into the tank but was rescued. The damage to the building was slight, water in buckets from the tank being used by the firemen to extinguish the blaze.

The origin of the fire is a mystery, owing to the height of the building and the fact that there are no electric wires on the roof.

GOLDEN WEDDING.

ALAMEDA, June 2.—Mr. and Mrs. Horatio Edgar Harvey fittingly celebrated the fiftieth anniversary of their wedding at their home, 2206 San Jose avenue, on Wednesday evening. Friends were there b ythe score to offer congratulations. Their great grandchild, Miss Maxine Cleveland, proved to be a center of attraction. At the supper table the little one sat at the side of Mr. and Mrs. Harvey.

The Harvey home was tastefully decorated, gold and green forming the body of the decorative scheme. The tables were garnished with marigolds and maidenhair fern. During the evening entertainment was furnished by the Misses Delzelle, Mr. Frank McNutt and Mr. Will R. McStay.

Among those present were: Mr. and Mrs. Edward Boell, Mr. and Mrs. James Ransom, Mr. and Mrs. F. G. W. Paige, Mrs. and Mrs. Adolph Vollmar, Mr. and Mrs. F. J. Davis, Mr. and Mrs. W. C. Kiefer, Mr. and Mrs. D. A. Camblien, Mr. and Mrs. J. A. Cameron, Mr. and Mrs. J. S. Hopkins, Mr. and Mrs. Harry Rhodes, Rev. and Mrs. P. C. McFarlane, Mr. and Mrs. J. Rauer, Mr. and Mrs. A. S. Ringo, Mr. and Mrs. C. A. Brown, Mr. and Mrs. F. Borle, Mr. and Mrs. Elmo Cleveland, Mr. and Mrs. Frank Cleveland, Mrs. L. B. Delzelle, Mr. L. Krause, Mrs. H. D. Taft, Mrs. J. J. McStay, Mrs. George Hall, Mrs. H. Bowen, Mrs. J. H. McNutt, Mrs. Theodore Gray, Mrs. Arthur Willis, Dr. and Mrs. W. H. Robinson, Mrs. J. Friedrichs, Mrs. A. Newcombe, Miss Winifred Gilkyson, Miss Taft, Mrs. A. Howard, Miss Blanche Speddy, Miss L. Moyer, Miss H. Rountree, Horatio Harvey Jr., Will R. McStay, Fairfax Harvey, Francis McNutt, Max Jones, T. H. Speddy.

ADELPHIANS TO MEET.

ALAMEDA, June 2—The June meeting of the Adelphian Club, the last before the vacation, will take place tomorrow at 2 p. m. The program, which has been planned by Mrs. Phillip S. Teller, promises to be an unusually fine one. A string orchestra of young ladies is to furnish selections.

NEW FERRY SERVICE.

ALAMEDA, June 2.—The twenty-minute train service on the Southern Pacific broad gauge line went into effect yesterday afternoon. The first train on the new schedule pulled into Park street station at 1:04 o'clock in charge of the veteran conductor "Bob" Owens. Thereafter the trains arrived with regularity. The people of the West End regret the laying off of the east bound locals during the greater part of the day.

EASTERN STAR ENTERTAINMENT

ALAMEDA, June 2.—As an aftermath to the successful presentation in Alameda and Oakland of "Hilario Jocundi," a mock imitation farce, members of Carita Chapter No. 115, Order of Eastern Star, attended an enjoyable theater party on Wednesday evening in San Francisco. After the presentation of the hilarious farce at Maple Hall, Oakland, the members of the troupe were presented with a portion of the receipts, and decided to use the money in providing themselves with theater tickets. Men were in evidence, the wives and sweethearts of those who were conducting the affair, but they were forced to follow the Riff-Raffers with implicit confidence. Their confidence was not betrayed, and they were treated to an evening of enjoyment.

Among those who attended were: Dr. and Mrs. Charles McQuesten, Mr. and Mrs. David W. Martin, Mr. and Mrs. Benjamin S. McFarland and two daughters, Mr. and Mrs. George Sturtevant, Mr. and Mrs. H. R. Taylor, Mrs. V. Hand, Mr. and Mrs. B. E. Combs, Mr. and Mrs. Charles Nottnagle, Mrs. Lancaster, Miss Edna Lancaster, Mr. and Mrs. Young, Mr. and Mrs. Harry M. Hammond, Mrs. Mary Holtz and son, Mr. and Mrs. M. G. Strong, Mrs. Gammill, the Misses Adah and Delilah Nobmann.

CONCERT LAST NIGHT.

ALAMEDA, June 2.—There was an excellent concert given last evening at the Unitarian Church by the Yorke Concert Company. An enthusiastic audience of music lovers greeted the performers, and warmly encored the selections offered.

The program was as follows: Waltz, C minor, op 7, Chopin, Miss Estelle Pryse; "Cavatina," J. Raff, Horace S. Duesbury; "I Had a Flower," Kellieb, Miss Lillian Yorke; "Hungarian Dance," Brahms, Horace S. Duesbury; "Cada La Sera," Millott, Miss Lillian Yorke; "Elegie," Ernst, Horace S. Duesbury; "Ave Maria," (Cavalleria Rusticana), Mascagni; Miss Lillian Yorke; "The Flatterer," Chaminade, Miss Estelle Pryse; "Traumerei," Schumann, Horace S. Duesbury; "Let Me Love Thee," Arditi, Lillian Yorke.

OPERATION AVOIDED

EXPERIENCE OF MISS MERKLEY

She Was Told That an Operation Was Inevitable. How She Escaped It

When a physician tells a woman suffering with ovarian or womb trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and *our hospitals are full of women coming* for ovarian or womb operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of ovarian and womb trouble cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Miss Margret Merkley of 275 Third Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness shooting pains through the pelvic organs, bearing down pains and cramps compelled me to seek medical advice. The doctor, after making an examination, said I had ovarian trouble and ulceration and advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The ulceration quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well."

Ovarian and womb troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain or swelling low down in the left side, bearing down pains, leucorrhœa, don't neglect yourself; try Lydia E. Pinkham's Vegetable Compound.

CITY TO BE GIVEN SIXTY MORE LIGHTS.

John A. Britton Makes a Statement to the Council—Committees at Work.

The city of Oakland may have sixty additional street lights during the ensuing fiscal year without having to pay any more money for the additional light. This in effect was the result of a conference between the Street Lighting Committee of the Council last night and President John A. Britton of the Oakland Gas, Light and Heat Company. The matter came up on the bid of the gas company to furnish the city with arc lights. The price last year per light was $7.50. For the ensuing year the city will have to pay but $7.25 a lamp. As there are more than 700 lamps the saving will be about $185 a month. There is a system of rebates for unlighted lamps during dark nights, which will bring the total reduction of expense per month to about $225. This means a saving of more than $3,000 a year, which will enable the city authorities to put in at least fifty additional arc lights.

ORDINANCE COMMITTEE.

An ordinance fixing the salary of the clerk and stenographer in the Board of Public Works at $100 was recommended by the Ordinance and Judiciary Committee.

Treasurer C. D. Bates was authorized to employ a stenographer to facilitate the clerical work of the office.

NEED AN AMBULANCE.

A resolution authorizing the Board of Public Works to advertise for bids for an emergency ambulance service for the city, day or night, was read. At the present time there is no ambulance except the police patrol, which has often other services to perform when an ambulance is needed. The committee deemed it advisable to rent an ambulance instead of buying one. By owning an ambulance it would be necessary for the city to hire four men, two for night and two for day service. By renting an ambulance it is thought the city can get the work done more cheaply.

IMPORTANT AMENDMENT.

The ordinance amending the present law regulating the digging up of streets for laying conduits by providing that all parties must pay into the city treasury 25 cents per square foot, to be used in the repair of the street torn up, was referred to the City Attorney. By the amendment it is proposed to have the city repair the street and to have the corporation or persons tearing up the street pay for the same. The ordinance was introduced by Councilman Meese.

BICYCLE ORDINANCE.

The bicycle ordinance, with the amendment that invalids using tricycles or other vehicles may use the sidewalk, was recommended passed to print. The ordinance provides a fine of $5 for violating any of the provisions.

CHANGES GRADES.

An ordinance changing the grades on Twenty-first avenue, from East Twenty-fifth street to a point 125 feet south, and on East Twenty-fifth street, from a point eighty feet west of Twenty-first avenue to Twenty-first avenue, was recommended.

STREET WORK.

The petition of Lizzie Latimer to connect sewer in Latimer place with Moss avenue sewer was recommended by the Street Committee. Her petition to accept Latimer place as a street was also recommended.

It was recommended that twenty days' notice be given of putting a sewer in Haley avenue, from Hopkins street 260 feet south.

The petition of F. B. Worthington for a sewer in Pine street, from Excelsior avenue to Peralta avenue, was recommended.

A petition to sewer Summit street, from Monte Vista avenue to southern termination of sewer in Summit street, was referred to the City Engineer.

It was recommended that C. A. Chichester be granted permission to grade and curb Genoa street, from Adeline street to Stanford avenue.

It was recommended that twenty days' notice of sidewalking East Twenty-first street, from Seventeenth avenue to Nineteenth avenue, be given.

A petition to sewer Grove street, from Forty-fifth street to Forty-sixth street, was referred to the City Engineer for a report.

It was recommended that Michael White be granted permission to lay a sewer in Forty-eighth street, from Shattuck avenue to Temescal creek.

It was recommended that George P. Mc-Kinnon be granted permission to lay a sewer in Apgar street.

It was recommended that those portions of East Fourteenth street, from Twelfth avenue to Fifteenth avenue, which are not now curbed with granite or other stone, be curbed.

It was recommended that the Hutchinson Company be granted permission to grade, curb, gutter and macadamize Eighth avenue, between Tenth and Eleventh streets. Permission was recommended to be granted the same firm to grade and curb Sixty-third street, Colby avenue and College avenue.

TO GIVE NOTICE.

It was recommended that twenty days' notice be given of sidewalking Twenty-fifth avenue and East Fifteenth street.

A resolution directing the City Engineer to submit a resolution of intention of sewering Forty-eighth street was recommended.

LIQUOR LICENSES.

The following liquor licenses were recommended to be granted: P. Cavanaugh, 370 B street; Germania Hall Association, 834 Webster street; O. Benis, 912 Broadway; Ghiradelli & Zunino, 716 Broadway; M. E. Gavello and F. Riso, 864 Broadway; Juco Pavao, 1501 Fifth street; Katch Lapozich, 462 Seventh street; Jacob Wehrli, 809 East Fourteenth street; Warnecke & Melchelo, 601 Broadway; Donahue & Murphy, 1791 Seventh street; P. Cavanaugh, 373 B street; William Breckenfelder, 1802 Seventh street; Charles Dubronz, 2005 Peralta street; Brosi & Pieri, 552 Broadway.

J. H. Wilson was granted permission to withdraw his application for a license at 1619 Market street.

TO PREPARE PLANS.

It was recommended that City Engineer Turner prepare plans for grading, curbing and macadamizing Harrison Boulevard, between Boulevard Terrace and Twenty-fourth street, and to prepare plans for a bulkhead along Harrison street boulevard.

It was recommended that the speed of trains on Lowell avenue, in Oakland, be regulated, and that locomotive whistles should not be sounded in the city except in emergency.

SPECIAL MEETING.

At a special meeting of the City Council the Contra Costa Construction Company was granted an extension of sixty days in which to complete the construction of the sewers in East and West Moss avenue. The extension was granted in order to protect any liens the company might have. The sewers are completed at the present time, but have not yet been accepted by Superintendent of Streets Ott.

Property-owners on Madison street were granted permission to lay an eight-inch sewer in Madison street, from Tenth street to a point 125 feet north.

COMEDY SUCCEEDS AT YE LIBERTY

A new phrase is being sprung by all the boys about town this week; "take off that hat." Does it sound familiar? Well it originates in the most ludicrous and highly amusing fashion possible in the production of the greatest comedy success ever seen on a local stage, "The Man From Mexico" at Ye Liberty Playhouse this week and Frank Bacon the inimitably droll comedian is responsible for it. Sheriff Cook, splendidly played by Orral Humphreys, is in the house to arrest Fitzhugh, (Bacon) and insists upon wearing an awful creation reminiscent of White Hat McCarty. It is offensive to the finer feeling of Fitzhugh especially as his nerves are not over strong due to a night about town and he objects to the head-gear, hence the phrase. It must be seen to be appreciated. With the funniest of funny plays and a company of comedians capable of bringing out every laugh, Ye Liberty is the place to go this week. "The Man From Mexico" is a delightful diversion and should not be missed. There will be a matinee on Sunday as well.

FAVORS ALLIANCE

LONDON, June 2.—Lord Lansdowne, Secretary for Foreign Affairs, in the absence of Premier Balfour, who is ill, presided at the dinner of conservative agents last night. Replying to the toast of the health of Mr. Balfour, Lord Lansdowne referred to the hope expressed for a renewal of the Anglo-Japanese alliance and said that the only practical question would be as how best to strengthen the existing alliance.

Never were the relations between France and Great Britain better or stronger than at present, said Lord Lansdowne and when the inner history of the recent anxious months came to be written it would appear that the good understandings with France had been the means of greatly mitigating the friction and troubles which seemed inevitable when a great war was progressing. He said that the one great hope of Great Britain just now was to secure peace in Far East.

CONFESS THEIR GUILT

CONSTABLE CARROLL FINDS EIGHT YOUTHS RESPONSIBLE FOR DAMAGE.

FRUITVALE, June 2—Eight young men have been found by Constable Tom Carroll who are said to be responsible for tearing down the fence before the Dewey School last Friday evening. In order to escape the jail, the culprits have promised to pay $5 apiece to have the railing put in order again. The officer will not disclose the names of the malefactors, who are penetent for their misdeeds.

On the same evening as the tearing down of the fence took place, the yard of Mrs. Flaxton of East Sixteenth street was entered and ten young hoodlums looted the product of the cherry trees there. The sleuth-like constable has also tracked these amateur criminals to their lair and made them sorry for their wrongdoing. Instead of arresting them, he forced every one to visit the aggrieved proprietress of the stolen fruit and beg her pardon.

SCHOOL ON PICNIC.

The pupils attending the Dewey School were treated to an outing by the authorities yesterday. The excursion was to San Lorenzo Grove, and there were nearly 500 children who went. The day was very pleasantly spent in playing games, preparing the dinner, and competing in the various athletic contests. Professor Hamil, the principal, had the affair in charge.

FREE DELIVERY BEGINS.

Yesterday was the first day of the new free rural delivery services. The mail was carried by S. A. Tuttle, who was appointed by Postmaster George Lund to serve until the government authorities appoint the regular carrier.

The route is about sixteen miles long. The principal streets covered are Fruitvale avenue, High street, Seminary avenue and East Fourteenth street. The route extends to Joaquin Miller's place in the foothills, and includes Mills College.

The residents in the portion of town west of Fruitvale avenue and south of East Fourteenth street are disposed to grumble at the apparent partiality of the government official who laid out the district, as none of the citizens in question can get their mail except at the office. The most of the population is, however, east and north of the office, and it is necessary that the majority be favored.

The route is as follows:

Up Fruitvale avenue from postoffice on Fourteenth street to Nicol avenue to Peralta avenue, northeast on Peralta avenue to School street, westerly on School street to Fruitvale avenue, north on Fruitvale avenue to Hopkins street, southeast on Hopkins street to old county road, northeast and southeast on old county road to Redwood road, west and southwest on Redwood road to Prescott street, southeast on Prescott street to High street, northeast on High street to Rose avenue, east on Rose avenue to Seminary avenue, southwest on Seminary avenue to Walnut street, northwest on Walnut street to Central avenue, southwest on Central avenue on Fourteenth street, northwest on East Fourteenth street to Fruitvale postoffice, a total distance of 16.12 miles.

FRUITVALE ITEMS.

Mrs. Burton F. Palmer, the wife of the pastor of the Congregational Church, is in Benicia visiting her parents. Her son accompanies her, and will not return until she does.

Mrs. Frances Page of Oleander is visiting friends in town. She used to live here a few years ago, and is well known in Fruitvale society.

SCHOOL POLITICS

Club People Find Fault With the Conditions.

BERKELEY, June 2.—At a meeting of the conference committee of the United Improvement Clubs of Berkeley President Robertson declared that the present School Board is opposed to receiving suggestions and criticisms from the residents of Berkeley. The chief complaint concerns the absolute power of the different members of the Board of Education regarding the selection of teachers in the respective wards. Mr. Robertson thought that the evil could be eradicated by destroying the "ward control" and placing the choice of instructors in the hands of the entire board. It was the opinion of the committee that political influence should be eliminated in the choice of teachers and civil service tests alone be the criterion of their selection.

R. A. Berry thought that the reform would require rather delicate handling. There was the danger of giving the Board of Education the idea that they were being baited and deprived of power, whereas the idea was quite the contrary.

A. R. Frame suggested that the clubs take general action on the subject and correct the evils from a legal standpoint.

AUTOCRATIC RULE.

A. E. Hess referred to the board as a body of "unapproachable immortals."

President Robertson brought up the question of the water supply, which he declared to be questionable at times. He said that the Board of Trustees was looking the matter up, but he thought that it would be a good idea to have a sub-committee work with the Trustees. The chair was authorized to appoint a standing committee of three on water.
